FINANCE COMMITTEE
MEETING YESTERDAY
Cadet Corps Invited To Send Repr-resentative To Secretary.

Last night the Finance Committee held its second meeting in the Union at 7:30, with "Pa" Coburn as the graduate member. Reports were received from all activities except the Classes of 1916 and 1917, the Institute Committee, the Orchestra, the Musical Clubs, the Union Dining Committee, Technique 1914, and the Biological, Mining and Wireless Societies.

After the reports had been read and discussed carefully, the committees appointed at the meeting of last week reported informally. None had finished the work instructed to it, and so final reports are to be made at the next meeting.

Then the question of the M. L. T. Cadet Corps was discussed. A statement of conditions as they now exist was given by one of the members, and as a result of this it was voted that the M. L. T. Cadet Corps be invited to send a representative to the Finance Committee regularly. It was also voted that the Boat Club and the Hare and Hounds Club be invited to send such a representative to the Committee.

A later consideration of the M. L. T. Cadet Corps question led to a vote that the Finance Committee recommend to the Institute Committee the advisability of suggesting the organization of an executive committee of the Cadet Corps, to be elected by companies, to have charge of social activities, and to have representatives on the Finance Committee.

SOPH SCIRMMAGE TODAY
Practice At North Brighton With Mechanic Arts High School.

At 4:15 this afternoon the 1916 football team will have practice with the Mechanic Arts High School team. This is not a practice game but merely scrimmages between the two teams. The work-out will take place at the North Brighton Playground. Shower baths and locker-rooms will be available.

To reach the Playground one should take a Cambridge Subway or Harvard Square surface car. At Central Square get a transfer and take a Western Avenue car to the grounds.

Coach Corry wants all the candidates out as this will be the last opportunity to test out the players before the Wellesley High School game on Monday. The team used will be the same as that to be used against Wellesley. The later game will begin at 3 o'clock Monday and the train to be taken will be announced in tomorrow's issue of THE TECH.

GLEE CLUB TRY-OUTS

The Glee Club try-outs will take place in the Union this afternoon at 4:15. There is a great opportunity for all fellows who sing. Poor management desires to have a large number of candidates. If you sing, be sure to come to this meeting.

JUNIOR NOMINATIONS BROUGHT TO CLOSE
Large Number of Candidates in Field—Ceded Out For Secretary.

The nominations for the Classes of 1912 have closed with the following men up for the several offices—President.

F. P. Scully
H. B. Shibin
E. B. Goodell
Vice-President.

T. R. O'Brien
The ballots will be ready at the Cage about Saturday. They will be due on October 21, 1913, and the class doors must be paid up before this.

Otherwise the ballots will be void.

ARCHITECTS' MEETING
Reception Next Friday Evening

At the first meeting of the Architectural Society in Pierce yesterday, the names of the Sophomores who have applied for admission to the Society were read and will be given careful consideration before acted upon.

Next Friday evening, Oct. 17, at 7:30 o'clock the Society will give a reception to the new instructors and students. It will be a very informal affair with plenty of eats and smokers. This reception will furnish an excellent opportunity to see some of the works by the new professors, including those of Associate-Profs. Le Monnier, Associates-Profs. Edgar I. Williams and several of the other instructors.

Look over the new editorial head. There are several changes.

Number three for the Athletics.

Two and one.

COSMOPOLITAN CLUB TO START SEASON TONIGHT
Club Makes Arrangements For Big Smoker—Four Students Invited.

The Cosmopolitan Club will begin the season's activities tonight with a good old smoker. A carefully planned program has been arranged as follows: 1. Welcome by the President of the Club. 2. Vocal solo by Mr. V. M. F. Tallman. 3. Talk by Dean Burton. 4. Flute solo by Mr. T. C. Har. 5. Talk by Professor Seaver. 6. Vocal solo by Mr. Howell Taylor. Following this the Tech papers will constitute the social entertainment, will be served, and a general good time will be enjoyed. This is really a reception to foreign students and the members are urged to be present to represent their respective countries.

Not until recent years has the Cosmopolitan Club been recognized as one of the important organizations of the Institute, and the members are most anxious that this year shall surpass all others. In past years entertainment has been furnished by the various members in ways characteristic of their own country. This method has proved decidedly interesting and impressive and has won the attention of the Faculty.

All foreign students are cordially invited to attend and enjoy one of the pleasantest gatherings afforded by their Institute life. The meeting will be held in the Union at 7:45 sharp.

BAAMO TESTING
It is very probable that the tests which were to be made last year in regard to the use of bamboo and reinforced concrete will be carried out this year in thesis work by one of the Chinese students. The bamboo was imported last year by H. C. Chow and was intended to be used on thesis work but arrived too late. This year the tests will probably be made on the tensile strength to determine the actual value of bamboo in reinforced concrete. The tensile strength of bamboo, its strength when filled with concrete, and its use in reinforced concrete will probably enter into the tests.

WEATHER
Forecast for Boston and vicinity: Unsettled with probably local rains; moderate easterly winds.
