ANNUAL FALL INTER-CLASS HANDICAP MEET

Preliminary Meet October 18—New Men Show Up Well—Generous Handicap.

The Annual Fall Handicap Meet will take place Saturday, October 25. This is one of the few interclass contests tests of the year and it is a splendid opportunity for any man to score in his class and make his name. As there are four places in each event and every generous handicap are given to new men. Handsome medals are given to those scoring.

In order to make a close and interesting contest proper entry cards must be given. For this purpose a preliminary meet will be held a week before on the 18th. Although new men are showing up exceptionally well, it is especially desirable that the men who were on the regular teams last year should enter more regularly from now on as the first meet is only a little more than a week distant.

FRESHMEN vs. JUNIORS.

1912, 12; 1915, 10; In Short ScrimmageYesterday.

The Freshmen and Juniors engaged in a short scrimmage on Monday afternoon at the Tech field. 1912 scored two touchdowns and 1915 two safeties and one touchdown. The following Juniors took part: Boys: Scully, McLaw, Proctor, Howlett, Morse, and White. Thomsen starred for the Freshmen at left half making three long runs and one touchdown by a line plunge from the 15-yard line.

Scully and McLaw made long runs for 1915, and a forward pass from Morse to Scully resulted in another large gain. Morse made the only touchdowns for 1915. The Freshmen team made several fumbles, but considering the early date, the outlook is very promising, and a good showing may be expected in the Somerville game which comes next Monday.

The men are showing a great deal of enthusiasm and can be relied upon to put up a good fight Columbus Day.

Besides this game, Manager Atkins has games in view with Lowell Tech., Newton High and Walham High.

TECH REPRESENTED

Professor Sedgwick Talks at New Bedford.

Tech was well represented at the meeting of the Massachusetts Association of Boards of Health yesterday at New Bedford. Professor T. Sedgwick was there and Robert S. Weston, who is taking the place made vacant by the call to Washington of Dr. Phelps, together with two of the graduate students in sanitation and the whole of the new Cooperative Health School that Harvard is carrying on together with Tech. In the forced absence of Dr. Phelps and Dr. Rosenau, who were scheduled to speak, Dr. Sedgwick gave an abstract of both their papers. About one hundred health officers of Massachusetts towns and cities came to the company and visited the garbage disposal plant, the intercepting sewer under construction, and the pumping station and filter and dosing plants.

Results of the Fall Tournaments are coming in very slowly. Only one match decided, and that a 9-3.

COMMUNICATION

To the Editor of THE TECH:

It seems to me that the House Committee does not use some up-to-date magazines in the Union. At present there are last four in the Union, Harper's Life, The Scientific American and the Saturday Evening Post. With the exception of the last named these are all old. With more magazines to read the Union would become quieter and less rough-housing would take place.

Respectfully,

A READER

Professor Jackson says education is not a process of driving facts in, but of assimilating and sorting out facts for one's self. Otherwise one is merely a sewage disposal plant.

Board and Rooms

Newton Centre

TO LET—Large room, four windows, furnished and carpeted, private family of three adults. Free use of a good library and pool table. Reference required. Apply at new building corner of Clinton and Stuart Sts., Boston. F. P. Morin.
