Eight candidates for the office of Managing Editor of THE TECH met in the lower office in the Union yesterday afternoon. Horbakowsky was elected Managing Editor of THE TECH.

Eight candidates to try for the position are candidates: C. A. Sandburg, '14; H. W. Anderson, '15; K. D. Kuhn, '12; C. G. Fdion, '14; L. E. Armstrong, '13; and S. S. Berko- witz, '15.

COACHES AND MANAGERS

Two Relay Teams Will Be Elected Today And Tomorrow--Tug--of-War Next Week

1916 Football.

Coach Caddy was not present at the Sophomore Relay Team practice at the Oval yesterday, but the men were sent through fast sall work for some time. The men were all in good shape and experienced no ill effects of Tuesday's hard scrimmage. The workout today will consist of secret scrimmage with the Boston Latin School team on the National League lines. The practice will begin at 4 o'clock sharp.

1916 Relay.

The management of the Sophomore Relay Team asks every man to bring out his $2.00 for Tech Night seats before next Friday night. The 1916 relay captain will be elected immediately.

MINERS HOLD FIRST MEETING LAST NIGHT

Prof. Richards Talks on Mining Labor Problems--Refinements Served Afterward.

Last night the Mining Engineering Society started its activities for the year by holding a meeting at which Prof. Richards, the head of the department, was the speaker. A short business meeting was held first, and measures were taken to raise the Society dues to $1.00.

Prof. Richards took up some of the most recent mining strikes and told how they had been dealt with. His standpoint was entirely impartial, his talk being mostly a presentation of facts. Although he believes the labor Unions to be on the wrong road at present. He first discussed the trouble in the Lake Superior Copper Mines. Although the miners there are much better off than in many other mines, operations were held up for quite a long time.

Can You Give Us Suggestions That Will Improve THE TECH In Any Way?

It is the earnest wish of the Managing Board to make THE TECH better in every department, to fill the wants here at Technology more fully, and to become absolutely alive to every phase of Institute life that falls in the least way under the scope of a daily paper. You can help us with your suggestions and criticisms, and we sincerely hope you will do so frankly.

Write your criticism on a piece of paper and drop it in the mail box near the door of the Lower Office at the Union, or in the mail office in Rogers Corridor.

TALK FOR COURSE XIII

Famous Racing Yacht Designer To Be At Institute Friday.

The juniors of course XIII are at present engaged in their yacht design work, and in this connection Mr. George Ovew, the noted yacht designer, has been persuaded through the efforts of Professor Everett to give a brief talk upon some of the points in connection with the designing of racing yachts. Mr. Ovew, who is a graduate of the Institute, has had a very broad experience in designing fast yachts, and is considered one of the best men on this sort of work in the country. He has been prominent--mentioning as perhaps being the designer of another cup defender to compete with the Herreshoff boat, Mr. Ovew is to meet the class in Rooms 32, Engineering C, at two o'clock, Friday, October 31st, and give a brief discourse upon the subject he is going to criticize the designs which the men have under way on their tables in the drawing room. This is an unusual opportunity for the men to have a chance to confer with an expert in the line in which they are working and promises to be very interesting.

ELECTRICAL SOCIETY

Smoker Indefinitely Postponed--Next Meeting Nov. 11.

Because of the inability of the two scheduled speakers to be present the smoker of the Electrical Engineering Society which was to have been held this evening has been indefinitely postponed. The next meeting of the Society will be held next Tuesday evening, Nov. 11, when Mr. H. A. Morris of the Simplex Wire and Cable Co. will deliver an illustrated talk on the "Manufacture of Insulated Wire and Cables.". The first three days following this talk excavations will be made to the Simplex plant in Cambridge. Every member of the Society should endeavor to attend both the talk and the excavation as they will be very instructive. President H. B. Richmond extends a cordial invitation to all members of other professional societies to be present.

The voting in the recent election for vice-president resulted in a victory for George K. Perley '14. Mr. Perley has been an active member of the society and prior to his election served on the Excursion Committee.

PROVISONAL WRESTLING SCHEDULE ARRANGED

Meets With Harvard, Brown, and Yale Included In Program--Both Former At Gymn.

The wrestling team is now well into what appears to be a most successful year. The men are working daily at the gym, more candidates being out than in any year previous. This is probably due to the fact that wrestling is now a recognized major sport.

Last year the team won all meet except one. The meet against Boston is now a recognized major meet. This year the team is to try to better off than in many other mines, operations were held up for quite a long time.

TECHNOLOGY TO HAVE SOCCER FOOTBALL TEAM

Major Briggs Sets Movement on Foot To Start Sport at Tech.

Major Briggs, the well-known friend of Technology athletics, has just brought to light another idea by which to keep M. I. T. interested in the latest college sport. Any one who has read the sporting pages of the daily newspapers lately has noticed the ever-increasing interest being shown in soccer football.

The plan has now materialized to

For Boston and vicinity: Probably fair; moderate variable winds.
