CROSS-COUNTRY RUN WITH HOLY CROSS

To Be Held Friday Over Regular Tech Course—Finish At Field.

There will be a dual cross-country run with Holy Cross next Friday. The race will be held over the regular Tech course starting at West Roxbury and ending at the Field. Arrangements will be made to have the finish come about the middle of the Field Day contests, so that those there to witness the struggle between the lower classes will also see a very close and exacting finish to the run.

Each team will be composed of the first six men to finish. The winning team will receive a cup and the first six men to finish will receive badges. The arrangements also have been made to hold the run at Worcester next year under the same conditions.

Holy Cross has several fast men and will have a team in last year's race. The winning team will receive a cup and the first six men to finish will receive badges. The arrangements also have been made to hold the run at Worcester next year under the same conditions.

SOCCER FOOTBALL

Men Interested Are to be in Union Tomorrow Noon.

Agitation has been begun among the Tech men interested in athletics in favor of the old English game of Soccer Football. This movement is a preparation for the spread of an important change in the NEW TECHNOLOGY, all under the supervision of G. M. White, last year's track manager, who was so effective in founding the form that placed him eighth last year in the New England's when running against the best men of this section.

Today the team is scheduled for a walk from the Gym at 4.30.

NEUGRO CAPTAIN TO SPEAK THURSDAY NOON

T. C. A. Speaker, Graduate of Negro Industrial School—Is Native Of Africa.

Captain Cele, who is to speak in the Union next Thursday noon, will undoubtedly be one of the most interesting and novel speakers that the Tech has ever engaged to speak at its weekly meetings. As a personage, he is said to be a very unusual character, and the men at the Institute are very fortunate in having the opportunity to hear him speak.

Captain Cele is a genuine African negro, and has just finished his training in the education in the United States. He graduated recently from the Hampton Institute, in Virginia, a leading school for the education of negroes, and is particularly interested in his return to his native country in Zululand, as he calls it, in the near future. Before taking his departure, the Captain is spending a few weeks in Washington, and is an artist in every sense of the word. He is said to possess a most interesting and pleasing personality. His tall, graceful figure, and at the same time, the manner of his manner that make him unique.

Mr. Cele's plans on his return to Africa, after spending his time in founding an industrial school for the education and training of the negroes, are to meet with the American negroes in the last few weeks, and is to return to Zululand with him to teach the girls how to cook and sew.

1916 GOV. BOARD MEETING

New Election Committee Appointed—$20 for Field Day.

At a meeting of the Sophomore Governing Board, held yesterday afternoon, R. E. McDermott and J. R. Douglas were appointed to lead the election of the Sophomore Class on Field Day.

The other business transacted at the meeting was as follows: In place of the old Sophomore Election Committee, which was dissolved two weeks ago, the following men have been appointed: J. B. Carr, chairman; H. E. Schueler, C. E. Reed, and L. B. Hasting.

The expenses incurred by the Sophomore Field Day Teams are to be met by an appropriation of $20 from the class treasury, one third of which is to go to each team.

It was also resolved at the meeting that each and every member of the Field Day Teams must have paid his dues, both past and present, in order to retain his position on the team.

The results of the TECH'S regatta for criticism are proof positive that the men were not different in the paper among the students.

November 29 is the limit of the time allowed for making up "D"s.

MANDOLIN CLUB

The Mandolin Club held a rehearseal yesterday afternoon in the Union. A new medley was given out which is to be learned by the members this week. This will be on Thursday, and the Couch will be present.

PROGRESSIVE CLUB

Several Progressive Club members are working at the poll today, checking their voters as the ballots are cast. They are volunteers in answer to the call sent out by the Club through THE TECH. Their work is in Ward 10 and 11.

FIELD DAY REGULATIONS AND POINTS ANNOUNCED

Time Of Various Events Is Given—Date Of Field Day

No one will be admitted without a ticket or a badge; officials and marshals will be provided with badges, and the players and officials will be directed to the field by the marshals through the managers of their respective teams.

The following rules must be observed by spectators, substitutes, officials, marshals and others:

During the football game only the players and officials directly connected with the game will be allowed on the playing field; substitutes and coaches will not be allowed to approach the field line until ten yards, and then only on the north side of the field (opposite the spectators' stand).

During the Relay Race, only the referee and officials connected with this particular race will be allowed on the field.

During the Intercollegiate trials, only the teams and officials in connection therewith will be allowed on the field. At no time will anyone be allowed to force the marshals, who may be instrumental in enforcing the rule, and football officials and spectators will be assigned as follows:
