Both Relay Teams in Good Condition

Odds seem to favor Sophomores—Older class usually victorious in this contest.

1916 Relay Team

As the Sophomore Relay Team lines up for the race this afternoon there is every indication that the team will prove to be one that can set up a record for a Field Day Relay Race. All the men are in fine form. All except three were on last year's team that came near breaking the record and winning the race.

The team is somewhat handicapped by the loss of C. T. Guething, who is running with the Cross-Country men. His place is to be taken by Laplaim, who was first substitute. The team has been showing up in very good form in the last few practices, and the passing of the flag has been perfect.

The mainstay of the team are Loomis, C. S. Reed, Comiskey, and Page. Loomis is captaining this year's team, and is probably the fastest man. He has been running in the short distance with Reed throughout last year and has made his 2's. The remainder of the team is made up of fast men well balanced to within a fraction of a second. With this material there is every hope of a winning team.

1917 Relay Team

After several weeks of constant work a Freshman Relay Team has been chosen that is both fast and efficient. The preliminary trials were

FIELD DAY CUP

This afternoon the Cross-Country Teams of Holy Cross and Technology will meet in a dual run over the regular Course of 4-1-2 miles.

The course starts at West Roxbury and is over level country for this kind of work. There are numerous hills, some being gradual slopes and others, like Larz Anderson, being short steep inclines. Fences are few but far between, and are not of the kind that block the runners to any great extent. The last two miles are road work, slope away from the Field. Not running in a straight line, the way is rather hard to follow, and for this reason a heavy trail has been laid between, and are not of the kind that

1916 Tug-of-War

It is now the day of the Rope Pull between the Freshmen and Sophomores, and we find the 1916 men, after a month of hard, faithful practice, eager for the fray with their rivals. The squad has for many a long day put forth its efforts under the watchful eyes of the man who, with the experience of the last three years to help him, was unanimously elected by the squad as their coach—H. A. Affel 1914. He pulled on his class team for two years and last year coached the varsity.

In picking the team this year four things were taken into consideration: weight, strength, form and attendance. By this point system Coach Affel picked his team and thought highly of the work they
