KOMMERS DINNER
ALL ARE INVITED
Annual Dinner to be Held in the Union on Thursday Evening. Special Features.

The Komers Dinner, which is to be held next Thursday night in the Union, is being pushed with all possible energy. Every effort is being made to swell the list of those who will be present to give the dinner the best possible success.

MECHANICAL ENGINEERS TO MEET TOMORROW
Mr. C. B. Rowley '12 Will Speak On Subject of "Cold Storage Insulation."

Tomorrow at 4:00 P. M. the Mechanical Engineering Society will hold a meeting in Room 11 Eng. B. The speaker for the meeting will be Mr. C. B. Rowley, M. I. T. 1912, of the H. W. Johns-Manville Company, who will talk on "Cold Storage Insulation." In his talk he will tell how and where the cork, which today occupies the most conspicuous and important place among the insulating materials used in cold storage plant is obtained. He will then give the history of cork board and practical examples of building and insulating with cork. The lecture will be illustrated with lantern slides and promises to be very interesting and instructive.

At this meeting an important change in the Constitution will be suggested, and it is hoped that as many members as possible will be present to give their individual opinions.

FRESHMAN NOMINATIONS
Will be Due Thursday Afternoon for Permanent Officers

Nominations for the permanent officers of the Freshman Class will be due Thursday, November 13, at 4:00 P. M. The offices to be filled are those of President, Vice-President, Secretary, Treasurer, and three members of the Freshman Class Committee. The nominations must be signed by at least ten members of the class. It will not be necessary to have paid dues in order to sign nominations, but in counting the first ballots, after the ballots are in, only those names will be considered whose owners have paid their dues.

The nomination papers should be left at the Cage, addressed to the 1917 Election Committee.

FRESHMEN WRESTLERS
Many Men Out—Novice Meet Planned—Team Picking

Over twenty freshmen have so far expressed their desire to escape gym work by coming out for wrestling. There are six classes, the 115, 125, 135, 145 and 165 pound classes. Any man making good in any of these classes will be excused from the regular class work which is required of all first-year men under twenty-one. That the men chosen for the team purely on their merits be assured by an innovation which permits any man who thinks he has not been fairly treated to challenge the champion in his class. Under this arrangement no man will be sure of his place unless he is the best candidate in the field. As was the case last year, a novice meet will be held for men who have never competed in any meet before. This meet will come on December 6, with the Y. M. C. A. as opponents.

NEW TECHNOLOGY ISSUE
Copies of Paper Still Available—Special Prices on Big Orders

Copies of the special new Technology issue of THE TECH are still to be obtained at THE TECH office as soon as it is completed. Plans are under way for a trip through Maine during the February vacation. About twenty candidates reported at the gymnasiurn yesterday afternoon for the Freshman Basketball Team. Manager Kausch would like to see about twice that number, in the belief that the strong showing made by the 1916 team last year means that 1917 should work its hardest. Any freshman who has ever played basketball, or who feels the team is strong enough, is requested to show up at the Cage, Rogers Corridor, Eng A, and a special meeting will be held for those interested.

FIRST SOCCER PRACTICE
Good Work Done, But Candidates are Lacking in Numbers

The Technology Soccer Team held its first practice at the Field yesterday. Although only about twenty men were present, all who came out were good players, and made arrangements for going. The triangles of the Society are now ready for distribution, and they may be obtained tonight. The plans for the mid-year trip will be discussed at the conclusion of the lecture and hence it is essential that every man of the Society turn out for the good time and instructive talk.

CALENDAR
Tuesday, November 11, 1913.
1.00—1915 Baseball Team Meetin
