This evening, Mr. Allen Rogers of the Hayden Stereotype Co. will address the Mining Engineering Society at their annual dinner in the Union at 8 o'clock. Mr. Rogers is a graduate of the class of '90, and during his twenty-three years of practice in the engineering fields he has acquired a large amount of experience, and it will enable him to give the members of the Society a very interesting talk. The subject of the speaker will be "Methods of Financing." The men of all courses are invited to the smoker, and as refreshments are to be served a large attendance is expected.

NAVAL SOCIETY

Tomorrow afternoon in Room 32, Engineering, Mr. William H. Lincoln, a member of the Committee, will give a lecture to the Naval Architectural Society on Marine Insurance. Mr. Lincoln is a member of the visiting committee of the Department of Naval Architecture and Marine Engineering and is in charge of the course for the Leyland Line, and was formerly President of The Boston Chamber of Commerce. This lecture promises to be interesting, and all are invited to hear it.

1913 CROSS COUNTRY

At the recent meeting of the Advisory Council it was decided that the Freshman-Cross Country Team is one of the class teams, and that therefore the class must pay its expenses. The approach of Anzler makes impressions, and the matter will probably be taken up at a meeting of the Freshman Executive Committee today.

The time trials for the Freshman team will be held at the Gym Tuesday afternoon. A few men wanted to bring the Freshman team into the Tech course last year, but Coach Knudt says the Tech course is considerably longer than the Anzler Course, and considers your team not so well prepared for the meet, to say nothing of its inconvenient situation.
