INTERESTING TALK BY REV. MR. WILLIAMS

Conditions Of "The Underworld"
Spoken By The Speaker.

The Union was practically filled yesterday noon, when the Rev. Mr. A. R. Williams, pastor of Maverick Church, East Boston, began his talk on "Glimpses of the Underworld." Mr. Williams said at the outset that little things out of the ordinary in the world attracted very much attention, and that such things as his topic suggested, aroused unusual interest. It would be his desire he continued, so limit the word "Underworld" more narrowly, and to confine his talk to that part of the underworld which constitutes one of the most difficult problems with which the social workers have to cope, namely, the unemployed.

In his many and varied experiences as news reporter in large cities both in the North and abroad, he has been parson in East Boston during the last few years, Mr. Williams said that he found when the unemployed man was not considered in the right light by the general public. East Boston's former population of more respectable people, and of people of higher social position have gradually deserted the island, and as its place has come a population consisting of the lower classes has taken its place. Rather than let the Maverick Church go to ruin, a congregation of these people has been built up, and the pastor said that among these working men are to be found men more honest, more trustworthy, and more fair than many of the average men of the better classes.

The workingman's unusual creativeness should not go unheeded, for, he said, it will be found in him a heart which is too fair, too just, and too contented. He then spoke of the high esteem in which all the men

(Continued on page 4.)

SOUTHERN CLUB

Meeting In Rogers This Noon.

The meeting of the Technology Southern Club will be held in 21 Rogers today. The students are reminded to attend the meeting and give their ideas on the various matters discussed.

BOYLSTON STREET CARS

Former Service On Boylston Street

In Operation Soon.

It has been announced through the Boston papers that the former car service on Boylston Street will be resumed in the near future, some statement being made at the opening of December of the service in other branches of the tenth of the month as the date. The opening of the car service through Boylston Street has been brought about by the active work of the clubs of fourth year students who claim that their usual Christmas trade will be affected unless former conditions are restored by the first of the month.

CROSS-COUNTRY TEAM LEAVES FOR RACES

Those Not In Freshman Or Varsity Races To Work At Field Tomorrow.

Yesterday evening at 6 o'clock the varsity and cross-country teams left for New York via the Fall River Line. The Back Bay station was the scene of an overwhelming outing by an enthusiastic and sincere crowd of six men.

All the men were in a confident mood and, as Coach Kanoly stated on the train, he said he had high hopes of the team's showing up well. The men have been working regularly this week and are in the best of trim. With the rest tomorrow, excepting the easy walk over the course, the team should be in the pink of condition by Saturday at 3 o'clock when the race is run.

For the cross-country men who do not run at Andover today, a squad will be formed at the Field at about 3 o'clock tomorrow. These men will take a rest today, as the work will consist of a rather long road run.

CONCERT TICKETS

On Sale By The Members Of The Clubs.

Tickets are now on sale by the various clubs for the concert on the twenty-eighth of November in which the combined Technology and Wesleyan take part. Last year Tech did not combine with any other club to give an concert and it is doubted if there will be any other time this season where they will combine. The concert is to be given in Jordan Hall in the building of the New England Conservatory of Music. A good, live program has been arranged with the first concert of the year sure to be a success from a musical standpoint. The combined Technology Clubs will supply the accompaniment of a weekly or monthly. The concerts to be held at 8:30, tickets being given probably every month. The concerts to be held at 8:30, being given probably every month. The concerts to be held at 8:30, being given probably every month. The concerts to be held at 8:30, being given probably every month.

The rest of the team is comparatively fast, fighting for second place on the team. The remainder of the team, however, did not come up to expectations, as they allowed four or five teams to score ahead of them. This year the team is fairly well balanced, with Donnelly, the old Exeter star, as the leader, and Parker and Brooks fighting for second place on the team.

A TECH LAMPOON

Rumor Of The Possibility Of Such A Year's Paper.

It has been rumored about the Institute that some of the members of the Senior Class and some of the Faculty are considering the publication of a weekly or monthly. The apparent reason to be the current of the humor or comic magazine, something of the style of the Lampoon, which is published at Harvard. No definite steps have been taken as yet in regard to the actual publication or the actual formation of the staff of the paper, so it is far from being an assured thing.

FRESHMAN TEAM IN ANDOVER MEET

Cross-Country Run At Andover Today For Freshman Teams.

While the Varsity cross-country team was looking over the course for the I. C. A. A. run, the Freshman team from the Institute will be running in the Intercollegiate Freshman Cross-Country Meet at Andover. The race are teams representing many of the colleges, including Harvard, Dartmouth and other of the larger colleges that have Freshman teams.

Last year Benson of Tech was the individual winner, making considerably faster time than any other man that ran, and finishing nearly a quarter of a mile ahead of the second man. The remainder of the team, however, did not come up to expectations, as they allowed four or five teams to score ahead of them. This year the team is fairly well balanced, with Donnelly, the old Exeter star, as the leader, and Parker and Brooks fighting for second place on the team.

The team is to leave the North Station for Andover on the 12:28 train. The men on the team are requested to eat a light lunch before leaving. Those who are to take the trip are M. C. Brock, J. J. Donnelly, J. B. Gardner, T. R. Hawes, A. C. Hitchfield, and H. Parker.

A TECH LAMPOON

Rumor Of The Possibility Of Such A Year's Paper.

It has been rumored about the Institute that some of the members of the Senior Class and some of the Faculty are considering the publication of a weekly or monthly. The apparent reason to be the current of the humor or comic magazine, something of the style of the Lampoon, which is published at Harvard. No definite steps have been taken as yet in regard to the actual publication or the actual formation of the staff of the paper, so it is far from being an assured thing.

SOPHOMORE BALLOTS

The Sophomore Class ballots will be due at the Cage next Tuesday afternoon, November 23, at 4 o'clock. No ballot will be accepted after this time. If there are any who have not finished their ballot is possible in the necessary amount, $1.50, in an envelope with their name on it, accompanied with the ballot.

As the time for Harvard-Yale games approaches, the Harvard men are tending to approach even money as the limit of betting. The odds differ by infinitesimals of the hundred order.

Meeting of Candidates for THE TECH 1.30

CANDIDATES FOR THE TECH MEET THIS NOON

Advantages Of Positions To Be Outlined—New Policy Adopted.

Freshmen and Sophomores (not to mention the upper classmates) are reminded of the meeting of candidates for THE TECH to be held this noon in the lower office in the Union. The head of each department will be there to explain the nature and details of his branch of work, and each applicant will be made fully acquainted with the general routine of the paper.

The chief benefit conferred by work on the paper, aside from those mentioned in preceding issues, is the number of men with whom it brings one in contact. There is no surer way of increasing one's acquaintance with men worth knowing, and thereby getting into line for various positions of responsibility and honors at the Institution and to after life.

As if THE TECH were not already doing enough for its workers, the policy was laid down yesterday by the chairman of the Managing Board yesterday afternoon, of showing them more little attentions and comforts heretofore. From now on, every man who makes the staff will be presented with a distinctive pin, the design of which is now under consideration by a committee of the Board. The pins will also be given official "shingles" stating the positions they have held on the paper.

Also, the dinners given by THE TECH to the members of its staff will be made a special feature, one being given probably every month. The first one will be something special, partly to make up for the lack of one to hold a break-up dinner last term. The financial condition of the paper is encouraging enough to warrant these entertainments.

WEATHER

For Boston and Vicinity: Generally fair, somewhat colder.

CALENDAR

Friday, November 21, 1913.

12:25—Freshmen have North Station for Andover Race.
1:00—Southern Club.
1:30—Candidates for THE TECH.
2:15—E. Trip—Leave Rowe's Wharf.
8:00—Lowell Institute Lecture—Huntington Hall.
November 22, 1913.
1:30—Cross-Country—Field.
3:00—Cross-Country—Field.

Harvard and Cornell are the favorites in the I. C. A. A. A. A. run on Saturday. Tech has a fighting chance to win, but it is a long shot and hopes to beat out Dartmouth.

A clean-up of Boylston Street sounds good.
