ANOTHER LEGACY TO TECHNOLOGY
Mr. Frederick W. Emery Of Boston Leaves A Hundred Thousand To Institute.

President Richard C. Maclaurin announces today the gift to the Massachusetts Institute of Technology of one hundred thousand dollars. The money, which will be used for the support of the Institute, will be placed in a trust fund, where it will earn interest.

As in the case of the Pratt bequest of three-quarters of a million dollars to the Institute, there will be no immediate change in the administration of the funds. The money will be invested in bonds and stocks, and the interest earned will be used for the support of the Institute.

The bequest of Mr. Emery comes to the Institute as a surprise, for he was not a well-known figure in the world of business or industry. However, he was a dedicated follower of the work of the Institute and a supporter of its activities.

The gift will be of great benefit to the Institute, as it will enable it to expand its facilities and improve its programs. It is hoped that this bequest will inspire others to contribute to the Institute.
