INDOOR WORK BEGINS

(Continued from page 1)

-Curtis was a member of the one-mile team last winter and is a Varsity runner. He is looked for to make the team again this year. C. S. Reed was a member of the one-mile team last year and has improved greatly since that time, as was shown by his fast work last spring and the remarkable race he ran on Field Day for the Sophs. Peaslee made a strong try for the team last season, but failed to make it. He is a possibility for this year. Bolton was a member of the one-mile team in 1912 and 1913 and should repeat.

For the longer race, Benson and C. L. Goddard, of last year's team, are probable members of this year's. F. L. Cook, the recently elected captain of the Cross-Country Team, is certain to prove a valuable man. Although last year's Captain Germain and Bylund were looked upon as mainstays, neither was in good condition and their failure to star affected the prospects of the team greatly. This is not the case this year, however, as all the candidates are in good shape.

The cross-country men have shown their capabilities by their performances this season, and with the aid of Bolton Reed, and Captain Geibing, all of whom have run on the longer ground, a combination is likely to be turned out which will make a good try for the college championship.

Francis O'Hara '17 has started practice, and with his previous experiences as an indoor worker, is expected to make the one-mile team. Friend '17 has also had a great experience and can be counted on to do fast work. Loomis and Huff, both Varsity outdoors, F. L. Ford '17, J. J. Denny '17, Cady '17, and Williams '17 are other promising candidates. C. Reid '16 also shows great promise of development. Graff '16 and Nye '14 will both try also for the two-mile team, and F. J. Walltry for it also after he returns to school in February.

Wall is doing light work even now in preparation for the relay season. W. E. Atkins is another promising candidate for the longer distance.

The team may not have the benefit of the excellent outdoor work this year, but Coach Kanaly hopes to overcome a minor difficulty such as that. The B. A. A. track has been constantly held in the Oval, but this property has now changed hands, and it may prove impossible to obtain the use of the grounds.

Coach Frank Kanaly, in speaking of the prospects of the team, said that from the quality of the men out and from the showing made by the Cross-Country Team this fall, he expects to turn out a far better team than that of last year. The gun will probably be entered in the B. A. A. meet, the Armory meet at Providence, and possibly some of the New York athletic club meets.

The New Model No. 5 Pr-ntype Oliver Typewriter makes an ideal machine for students' use. It is a marvel of simplicity, durability and ease of operation. Printtype your notes and they will be twice as valuable to you. Easy terms if desired.
