Subscriptions: $2.00 per year, in advance, postage paid.

FRIDAY, DECEMBER 5, 1913.

In Charge of This Issue

Editor-R. P. Gray '16.

Nominations

Nominations for the Senior Portfolio Committee may be handed in at any time between now and next Thursday. While this is an exceedingly important election, it is one which appeals to popular enthusiasm, and it has sometimes lured the careful attention from the body of the class which is necessary to secure good results.

Seniors that know anyone who would make a faithful and efficient member of the committee should get busy and nominate him. If you leave it to someone else, you are letting your class be run by a small minority, and this is not to your advantage.

A representative from the Walker Club dropped into the office the other morning to consult our calendar, in order that, in arranging a date for his Club meeting, he might not conflict with some other activity. The TECH will be glad to help activities in this manner, but any such arrangement is imperative.

We think, however, that the Committee should not act as quickly as possible, for it is always better for work to be done by persons who can make a specialty of it.

Efficiency should, so far as possible, be the watchword about the TECH. Such is not the case at the baths behind the Engineering buildings. A man going from the Union to Lowell is treated to a shower which we do not want, of manual exertion, but its excellence is completely masked by the lack of the little things which we are accustomed to think necessary to the proper enjoyment of the bath.

Better provision for dressing-rooms, and an improved towel service would

WALKER MEMORIAL COMMITTEE MEETS

Undergraduate Committee Takes Up Consideration of Proposed Student Building.

The undergraduate Walker Memorial Committee held its first meeting of the year last night at the Union. The committee, as recently elected by the Institute Committee, is composed of C. E. Fox '14, E. B. Goodell '15, Pierce '17, H. P. Sabin '15, and had its first meeting of the year last night at the Union. The committee, as recently elected by the Institute Committee, is composed of C. E. Fox '14, E. B. Goodell '15, Pierce '17, H. P. Sabin '15, and met yesterday to become familiar with its duties and outline its work. In 1912 Prof. Massieu appointed a committee from the faculty, consisting of Dr. Tyler, chairman, Drs. Moxey and Rockwell and Horace Burton for the purpose of investigating the needs of the Institute student body for a building as the Walker Memorial. This committee completed its report and submitted it to the president about a month ago. The report has been published in substance in the Technique Review and elsewhere.

The faculty committee decided during its investigations that it would be advisable to have the counsel of an undergraduate committee. Acting accordingly, last year's Institute Committee appointed me to serve on such a committee, to which the present committee is a successor.

At the meeting yesterday C. E. Fox was elected chairman and H. P. Sabin his secretary. The principal duties of the committee will be to go over the plans which the faculty has submitted for the proposed Walker Memorial Building, appraising them or suggesting changes and improvements. The nature of the committee's criticisms will be the determination of the allotment of space to the different student organizations, and in the event of expansion to foresee the demands which may be presented by societies as yet unfounded.

The committee will take its work more deeply under consideration in the near future, and Secretary Sabin will notify the members of the date of the next meeting.

TECHNIQUE

Call For Candidates Meets Little Response.

Yesterday the office of Technique opened to receive candidates for the position of Assistant Business Manager. The small number of men have reported is scarcely creditable to the Junior Class. Technique 1915 is wholly a class affair, and as such should be supported by the whole class. The quality of Technique is considered by outsiders as representative of the worth of the class. Business Manager George Darghani announces that he will be pleased to meet any additional candidates at the Technique office any day at 3:30 P. M.

PORTFOLIO COMMITTEE

Nomination for the Senior Portfolio Committee opened yesterday, and so far one nomination has been received at the Cage. The nominations close next Thursday.

The question of whether or not the Portfolio is to be included with TECHNIQUE will be decided by the class, after the five men who compose the Portfolio Committee have been chosen.

So much to make the bath more enjoyable and probably more widely patronized. Lack of these little comforts at the present time is a source of annoyance.
