COLLEGE NEWS

William M. Sullivan of Brown has been selected as one of the Rhodes Scholars for Oxford in 1914. He is a Phi Beta Kappa man and won his letter in basketball.

The annual triangular debates between Cornell, Columbia, Syracuse, Pennsylvania and Tulane will open early in January at Syracuse. The second debates will be held at Penn in the latter part of the month. Both of these dates mentioned will be on the question of "The Minimum Wage."

The base of Yale's great stadium is gradually assuming its natural proportions and it is expected that the entire structure will be completed in time for the Harvard game of next year. The "bowl," as it is termed at New Haven, is to be nearly a thousand feet long and 750 feet wide. It will be a half-mile around the top, on which there is to be a walk fifteen feet wide. The thirty entrance tunnels, each of which will accommodate 6,000 persons at a time, were finished last week. In their construction alone over 50,000 bags of cement were used. Over $62,000 has been subscribed so far, and additional sums are coming in daily. By a special arrangement of the Yale corporation, anyone contributing a thousand dollars to the fund has the privilege of securing each year a block of ten seats in the reserved section.

We announce the receipt of the first number of Volume XXXX of the Literary Supplement of the Queen's University Journal. Queen's University has one of the best hockey teams in Ontario.
