PRESIDENT MACLAURIN WITH MONTESSORI SCHOOL

Method Of Italian Educator To Be Given Trial In This School

That President Macfarlane is the head of a non-technical school has been brought into prominence by the visit of Dr. Montessori to Boston. One of the events in the stay here of the Italian educator is a method he plans to carry out in the school in present form. Some time ago he became evident to a group of Bostonians that there was a need for a school which was usually denominated "private," and which was the result of the wish of parents to have their children in much the same way as in the schools of Europe. This method is called the Montessori plan.

Mr. Edwin Mulready, Department Chairman of the State of Montana, will speak next Thursday noon at the T.C.A. meeting in the Union. Mr. Mulready, who is widely known as a temperance worker, has had a very successful experience. He was for eleven years secretary and for three years president of the Catholic Total Abstinence Union of the Diocese of Boston. He was also president of the Boston Union Temperance Society. At present he is secretary of the National Temperance Union of America.

FRESHMAN EXECUTIVE COMMITTEE

Subject Of Class Banquet Will Be Considered

The Executive Committee of the Freshman Class will meet in the Cage before Dec. 20. This committee includes, besides the officers of the Class, the representatives on the Athletic Association, the Institute Committee, and the regular Freshman class officers. It is expected that this committee will be ready to present its report to the members of the Class.

TECHNIQUE 1915

Questions Sent Out To Juniors--Cartoons Wanted

Today there will be mailed to each member of the Junior Class a list of questions such as "Who is the most popular, most versatile, best dresser, and greatest dresser, greatest talent," and many others. All members of these questions are to be left at the Cage on or before Dec. 20, and a copy of Technique 1915 will be awarded to the man sending in the best replies. Any man who knows of any of these "ads" and can get them will receive ten per cent commission. Photos that have been taken around the Institute or of that contain something of interest will be desired, and contributions will be gladly received. Men are needed by the management for art work, headings and cartoons, and any man interested is asked to come around to the Technique office and sign up.
