INTER-CLASS MEET

(The Committee from page 1)

The following day, Fox continued with a rush, passing Nye and coming close to Guething. Although Guething tried desperately at the finish he was unable to hold his lead over Fox, and they finished in the above order. The time for the run was good, being within a second of the record.

Men's head work was shown by the competitors in the mile run. C. T. Guething '16 took the lead at the start with S. Lee '14 second. C. M. Brock '17 third. At the end of the first lap L. K. Cook '15 passed Brock, who dropped back behind. C. M. Brock '17 at the end of the second lap. On the fourth lap Cook passed L. Lee and on the fifth Brown came up to fourth. For several laps the men were in close positions, although many pretty attempts at passing were made. On the fifth lap Brock and L. Brown again fell back on the next lap. The sixteenth lap saw Brown pass Guething and E. A. Teeson '15 hold his position for more than fifty yards. Brock was now back fourth position. Cook tried hard to work his way to the lead, but was unable to pass Cook or Guething. On the last lap it looked for a time as if Brown might finish ahead, but Guething overtook his lead and finished in the comparatively good time of 4:37-4-5.

The last running event of the evening was the four-mile. The race against the opposite of the mile in that the men showed very little departure. A. S. Milliken '14 took the lead at the start and taught with L. Thompson '14 to hold his position. A. F. Peaselec '14 was running third with R. F. Pollard '15 fourth. Thompson was slowly forced to fall back because of his premature sprinting and came up to second. On the seventh lap Loomis came up and passed Thompson while Pollard dropped back. On the last lap Milllove blew up, Peaselec taking the lead with Loomis close behind. The finish of the mile and half-mile and the series of the very close, Thompson getting third. Pollard fourth and Milliken fifth. Peaselec won with about two yards to spare. On several of the turns there were lead mixups, so that the games were disqualified Thompson for stepping over the pole. The time was slow, 2:19-1-5.

The feature of the field events was the jumping of W. A. Sullivan '17. He and E. A. Teeson '15 tied at 5 ft. 8 in., which is a good mark at this stage of the season. Both Sullivan and Teeson were in fine form, the latter clearly leading 5 ft. 9 in.

The pole vault was a runaway for L. Lawson '16, who cleared 9 ft. 3 in. Fox merely entered this event in the hope of winning the meet for the seniors.

The shot put was well contested and E. W. Carpenter '17 won with a toss of 35 ft. 10-1 in. C. D. Winton '17 proved second with E. T. Milliken '16 and Fox third and fourth respectively. The freshmen showed up well in this event and the outlook is very encouraging. The weight events have always been the weak side of Tech's event and the outlook is very encouraging. The freshmen showed up well in this event and the outlook is very encouraging.

The last event of the evening was the long jump. The meet was the University of New York, and the men were tested in their strength in this line will materially help the team.

The last thing on the program was the regular all star relay race that always features the indoor meets. The members of the respective teams were Tom Guething and Louis Wilson. The Wiltsites took the lead at the start. The men started half a lap apart that they might be better able to bring down the world's record. They then ran fairly evenly till the second lap when Day, running for Guething gained a few inches. Sewall and Atwood were the ones to expel the honors of their respective teams. Two runners for Guething left the Guelphites. The latter regained the lost inches, Fox and Guething next tested their metals (otherwise known as spikes). Wilkins and O'Hara then gave a thrill in the attention of the large crowd present at fever point for two laps. For the final set-to Louis Wilson was opposed to All Peaselec. Wilson finished in a blaze of glory several yards ahead of his humbled opponent.
