E. E. Society trip is indeed an inspiration and a practice which should be given every chance for development. The idea of such an excursion offers is necessary to every one. He gets new ideas, such an excursion offers, is necessary to every one. He gets new ideas, such a view of affairs if we could become philosophic observers of our faults?

BOSTON OPERA COMPANY PRESENTS "CARMEN"

This Week Will Be One of Most Important in Season—"Love of Three Kings"

The importance of the forthcoming week, the twelfth of the Boston Opera season, will speak for itself. An impor-
tant new opera will be brought to its first performance, three old favor-
etes will be restored to the current repertoire and one work which has met with especial favor this winter on short Saturday evening performance at popular prices, Flotow's "Mar-

"The Love of Three Kings" will be given its Boston premiere. This is the work which has recently been pro-
nounced in New York as one of the most important new operas that has ever been performed there. It is also the work which was the central feature of the opera season. The opera production will be the same, in all important essentials, as the Metro-
politan cast. It will include Miss Lucia Bordoni as Fiora, Pasquale Lucrezia Bori as Flora, Pargnome Amato a Manfredo, Edouard Ferrari as the Armando and the famous French mezzo-soprano, Lucienne Nussbaumer, as the Archibaldo; with Mr. Moranzoni directing.

The day which served almost verbatim for the libretto of this opera was written by Emile Benelli, one of the foremost of the Italian dramatists and poets of the day. It was a suc-
cessful drama before Ilo Montemont turned it into an opera and it has lost none of its dramatic values in the process. Of the music, it has been hailed by some critics by the rehabilita-
tion of Italian opera; while even the most conservative critics have praised it enthusiastically.

Wednesday night will be the occasion of the season's first performance of the ever-popular "Carmen," with a notable cast. Marguerita d'Alvarez will sing the title role, and the spirit and those who have heard her can imagine. The Don Jose will be Lucien Maturi, who returns from Chicago, crowned with fresh laurels, to round out his Boston season. Mr. Andre-Caplet will conduct. With such a cast a remarkable performance of the latest work is assured.

On Friday night "The Secret of St. Lazarus" will come to its first perfor-

MUCH RATHER THAN MANY OTHER SCIENTISTS

Much Rather Than Many Other Scientists.

Although quite a little has been said about specialists from various countries rushing to Japan to observe the phenomena of the eruption, the Sakhalin Island, the Massachusetts Institute of Technology will have its man on the ground first. Professor MacKuen has been in communication with Dr. T. A. Kaggar, stationing in Hawaii, and he is already well on his way to the islands ahead of the European volcanologists who are to congestrate there.

Dr. Kaggar has been exceedingly active in his observation of volcanic phenomena. He was early at Mount Pelee in the Antilles, where most val-

FRESHMAN TO ANNAPOLIS.

Forrest T. Sherman, '17, has been appointed to a Cadetship at the U. S. Naval Academy at Annapolis by Congressman F. S. Dietrich. He was a graduate of Melrose High School in the class of 1913.
