J. M. WHITE CHOSEN HEAD OF N. E. I. C. A. A.

Names Executive Committee—Will Try To Secure Stadium for Spring Champs.

At a meeting of the N. E. I. C. A. A. held last Saturday morning James Mayne White, vice president, was elected president for the coming year. Two years now in the Association and White has represented Technology two times. Last year he was the manager of the Tech track team. He is a senior in Course VI and comes from New York.

W. R. Silverman of Wesleyan was elected vice president and P. A. Waring of Maine secretary. For treasurer E. J. Graves of Dartmouth was elected.

An assessment of $10 was laid on the several colleges to cover the running expenses. It was also decided that the executive committee try to hold the Spring Championships at the Stadium this year. This meet takes place on May 23 and 24.

President White's special official action was to appoint the other members of the executive committee of which he and the treasurer are members ex officio. The other four members are S. J. Patten of Brown, F. I. T. Curry of Holy Cross, F. R. McCool of Williams, and the manager of the Field hockey team.

TECH SHOW POSTERS

Competition Closes Tomorrow—Final Choice Next Week.

The poster competition for Tech Show, 1914, will close tomorrow and the posters will be due at 4:30 in room B, The Union. Of those handed in, the few which are selected as being the best will be returned to the artists for revision and completion.

It has been something over three weeks since the competition opened and several good posters are expected. The final decision will probably be made about Wednesday of next week. Posters handed in later than that stated will not be considered but it is not necessary that those handed in be entirely complete.

1916 RELAY PICTURES

The men on the 1916 relay team may obtain pictures of the team from Nottman's for $1.25. This picture is the most enthusiastic and will appear in the 1915 Technique.

MILITARY HOP

The annual military hop at the Technology Cadet Corps is to be held on Friday, February 28, 1914, at Hotel Union. The preliminary dance orders are out, and may be obtained at the Union from the Cage.

STUDENT TO GIVE NEXT THURSDAY NIGHT TALK

T. C. A. Delegate to Recent Student Volunteer Convention To Tell of Gathering.

For next Thursday's speaker, the T. C. A. will have one of the student-body give the weekly talk. This will be the first talk of the second term, and will mark the first time that a student will give the T. C. A. talk. The speaker has chosen for his topic "A Gathering of 2000 Students."

The speaker, W. T. Knausen, of the Sophomore Class, will tell of this great gathering, of which he himself was a part. The Kansas City Convention of the Student Volunteer Movement, Knausen attended the convention as a delegate from the Technology Club, at the urging of Mr. H. M. Bluet, the graduate Assistant General Secretary of the T. C. A., constituted the delegation from the Institute. It was the first time that the Institute was represented at any of the conventions, which are held every four years, of the Student Volunteer Movement.

The convention was held from Dec. 31, 1913, to Jan. 4, 1914, and took place at Kansas City, Mo. The number of delegates, mostly students, tallied up to 1,500, and these represented almost 1,000 colleges and universities in the United States and Canada. It was the largest gathering in the history of the Movement. Among the speakers were some of the most eminent missionary workers in the world, and they came, in fact, from all parts of the globe. Knausen will not attempt to give a formal report of the Convention, but will try to deliver to the men at the stage the message from the great conference.

COSMOPOLITAN CLUB

Meeting Wednesday—Picture of Club To Be Taken.

The next meeting of the Cosmopolitan Club will be held Wednesday afternoon at five in S Room C. Important business will be taken up at that time and considerable large attendance. Dr. Naunton will give a report on the convention of Cosmopolitan Clubs that was held in New York, during the Christmas vacation. Arrangements for the social activities of this term will be brought up at this time and action taken.

The picture of the club will be taken on Wednesday, Feb. 11, on the Ruggles steps at one o'clock sharp. If weather conditions are unfavorable it will be taken the next day at the same time.

HARVARD-TECH MEET

Wrestling Team Works Daily Preparing for Next Match.

Still practice is to be held by the wrestling team every afternoon until the Harvard meet next Saturday. The team is kept down to hard work by Capt. Kelly who is paying individual attention to the work of his men. At present there is a possibility of twelve bouts, two in each class. Capt. Kelly is now down to the 125-pound class and will enter the meet at this weight. Martin, Treat, Crowell and all the other men of the first four are showing up finely in practice so that Kelly is well pleased with their appearance.

Tickets for the Harvard meet are going fast, but may be obtained at the Cage, supply rooms from any of the wrestling team. Nimetz, who broke his arm while wrestling in the meet with the B. Y. M. C. A., has sufficiently recovered from his injury that he has again resumed his studies.

The meet with Salem, which was to be held on Wednesday, has been postponed as that team claims to have received severe injuries which may cripple it for the rest of the season.

SENIOR PORTFOLIO

Chance in Union Today To Sign Up For Settling.

Some of the members of the Senior Portfolio Committee will be in the Union this noon and tomorrow noon and so that all the men of the class can have an opportunity to sign up for settling. The committee states that all the men must sign up within the next two weeks or the work must be turned over to the engraver as soon as possible. A chance was given to some of the men to sign up before the vacation and quite a number took advantage of the opportunity.

There has been more or less misunderstanding about the settling and the committee deems it necessary to state that they are free but that those who care to may order pictures. The scale of prices is:

PRIZE FOR NAME FOR NEW TECH MONTHLY

Competition Open to All Men in the Institute. Meeting Today at 4:30 in Lower Tech Office.

Today an open competition begins for a name for the New Technology Monthly. The answers to this contest should be left at the Cage not later than Saturday, February 14, at 5 p.m. addressed to "Name Contest Committee, Technology Monthly." That the men of the Institute shall interest themselves in this contest, the management will give the winner one year's subscription to the new Monthly. For the second best answer received, a half-year subscription.

This afternoon an open meeting will be held in the lower office of The Tech at which all men in the Institute who are interested in work on the Monthly are requested to be present.

TALK FOR CHEMICALS

Prof. Whittaker will Speak on Future of Chemical Engineering.

The members of the Chemical Society are promised a treat at the next meeting which opens on this Friday evening in the Union. Prof. M. C. Whittaker of Columbia University is to speak on "The Future of Chemical Engineering." Prof. Whittaker is considered to be well qualified to speak on this subject. He is a graduate of Columbia, and was for a long time the General Superintendent of the Vauhick Company, in which position he was a great factor in making that company to its present high standing. He is now President of the Institute of Chemical Engineers, editor of the Journal of Industrial and Chemical Engineering, and Professor in charge of the Department of Chemical Engineering at Columbia. Prof. Whittaker has spoken at the Union several times. The officers of the Society want a large crowd out to hear him, as they say he is a wonderful talker, and his subject is one in which all Chemists are most enthusiastically interested, and one in which all Chemists have a vital interest.
