FACULTY NOTICES

Third Year R. R. Engineering.

Professor Bredl's section in Railroad Engineering, Course 1, will meet on Tuesdays at ten o'clock in 67 Engineering A.

Fourth Year.
Mechanical Engineering, Course II, fourth year, sections 1, 2, and 3 will meet for Hydraulic Engineering on Tuesdays at ten o'clock in 63 Engineering A. Section 3 will meet on Mondays at two in 69 Engineering A.

Fourth Year Course II. Sections in Engineering Laboratory: Sections 1, 2, 6, 8, 9.
Section 3a
Section 3b
Option 3, a Other.
WALTER HUMPHREYS.
Registrar.

TECH MEETS COLUMBIA

Arena leased for Hockey Game Next Friday Night.

At 8:30 p.m., next Friday, in the American Tech Hockey Team will meet Columbia. This is Columbia's first appearance here, and a fast contest is promised. The programs of the game are to be used for paying coach for the team, so the management hopes all Tech men will be present to offer. To encourage a large attendance, the price of seats for Tech men: $1.50 will sell for 50c, and $1 box seats for 50c. Tickets are on sale in the Union today.

According to a report given by an efficiency engineer who has made a practice of studying cases of graduates of technical schools who take up engineering work, the failures are due to three things. First, lack of previous experience and good judgment; second, the feeling of superiority over the untrained man; and third, the feeling of superior technical schools.

A distinguished visitor to Technology last week was Dr. H. A. Abraham, director of the physical laboratory of the Institute of Paris, one of the divisions of The College de France. He is making a tour of the country in the study of institutions for the study of physics, and has included in these the Bureau of Standards at Washington.

The Library of Technology acknowledges the receipt from the Federal Technical Institute of Zurich of twenty-five Theses for degrees of recent graduates of the school.

The President at the Purdue University are now reaching their barbers to devise some new method of hairdressing the next entering class to take the place of the annual tank scrap which has been abolished.

A small pamphlet called the "Praecipua" appeared on the campus at Purdue University, and it has been the subject of much comment because of its lack of taste and decency.
