THE TECH

THE TECH is published daily except Saturday by students of the Massachusetts Institute of Technology.

General Manager: W. E. Hewins, '16
Assistant Manager: R. C. Sandburi, '41
Assignment Editor: J. A. E. B. Hall, '14

THE TECH keeps on the lookout for the best, and the past time was most promising.

Coach Kanyon, in thinking seriously of the men in the latter classes, has decided to call them to the Providence meet although nothing is at present finally decided.

At the I. C. A. A. A. Track and Field Championships to be held at the 1915 Pan-Pacific exposition, there will be a 440 yard straightaway on which longer distance races will be held on a track, with the course following the lines of a U.S. track. This will be the first time that such a meet will be held in the West.

It may give the Eastern colleges a better chance to see the handicaps of a week's trip before the meet.

The measure has been the result of the efforts of the Western colleges in the past few years, to show the Western teams in former I. C. A. A. A. meets.

Coach George Huff expects to establish a school of Athletic coaching at the University of Connecticut. This plan, he hopes, will mean a national college of Athletic coaching in the near future. This school would train men for track, football, basketball and other important sports. Such a course is at present given at the Harvard Summer School for Women. We have heard of it before, but the fact that it is now being given at a college in the United States is something that rivals the opportunities offered elsewhere.

Crowell obtained a hip lock and threw his man heavily to the mat. Soon after the final decision, the Harvard man was down and Tech had two more points added.

The Frenchman had to struggle through, and the Harvard man, however, managed to throw his opponent in the 145-pound class.

Showing the spirit that has been brought in by the freshmen, the Tech man did not give up until the last minute and the others who were present were perfectly satisfied with the performance of their men.

The summary:

135-pound class—Kelly, Tech, defeated Tcayer, Harvard, 42-0.

Handicap match—Martin, Tech, 135 pounds, defeated Loomis, Harvard, 135 pounds, decision.

145-pound class—Treat, Tech, defeated Griffiths, Harvard, decision.

Crowell-pound class—Tyner, Harvard, defeated Goodell, Tech, decision.

Heavyweight class—Crowell, Tech, defeated Freeman, Harvard, 32-8.

The committee in charge of the banquet of the Cosmopolitan Club of Harvard and M. I. T. request that all members who intend to be present leave their names at the Cage for M. I. T. so that arrangements can be made for the time and place of the banquet. Announcement of the date will be made later in this column.

The crowd that attended the wrestling meet last night illustrated the fact that holding two undergraduate events on the same evening is not always objectionable, and may even be made highly advantageous by a little careful arrangement. In this case the fixing of the times of the two events made it not only possible, but easy and natural for the Freshmen to go directly from their dinner to the Gymnasium; as a matter of fact, most of them did so.

"Technology is not a college or a professional school; it is something greater than either. It is a place to get an education in the business of becoming a professional man. It is a place to gain a glimpse of the truths which are present position in American education as well as a promise of further achievement. "Gentlemen, I believe this is the greatest school in the United States."

SPICES.

The performances of T. H. Gardiner and C. Fox in making the best time of the two events were most promising.

Coach Kanyan is thinking seriously of running the men in the longer distance races and the race on the field course comes first at the Providence meet although nothing is at present finally decided.
