SOLVE-A-PUZZLE.
(Continued from Page 1.)

this: Who in your opinion would be
the best man among the students to
take the part of the black lay society
matron as she was described in one
of the earlier of this set of stories?
You remember her, of course. Very
dignified, very much wrapped up in
the doings of the social world and in noth-
ing else, with a disdainful, haughty air
and with a walk characteristic of the
haigaroo. Now who that you know
or have seen among the men at the
State would be best able, either from
natural ability or from cleverness at
impersonation, to portray this part as
it is to be given in Huntington Hall
on March 7?

In closing remember again the
tickets and the regatta with which
they are disappearing. If you can not
get blue ones get hold of two white
ones or it will be found that the sev-
en hundred of them have likewise
been all disposed of. Don't delay.

MRS. STOKES GIVES
TALK TO STUDENTS
Aims of Socialism Outlined
Before Large Gathering
Monday Noon.

One of the largest crowds ever
gathered in the Tech Union listened
to Mrs. Rose Pastor Stokes, well
known social worker, when she spoke
yesterday on labor problems. The
speaker held the attention of the au-
dience absolutely, and every word
she said could be plainly heard.

Mrs. Stokes spoke under the aus-
pices of the M. I. T. Forum. Julius
Kutner, president of the Forum, in-
trduced the speaker, who is the first
woman to give a talk in the Union.

She wanted to interest all intelli-
gent people in the Socialist and labor
movement. The time is coming, she
said, when every one must have an
opinion of these matters, which must
be based on sound grounds. Hence
the Socialists welcome all intelligent
interest, even if it is in the form of
opposition.

The speaker then outlined some of
the basic principles of her economic
ideas. The laborers produced all
wealth, even that which the capital-
ists use to promote industry. Hence
the workers are entitled to the pro-
fits of industry. The capital used by
the leaders is not produced by them,
but really belongs to the workers whose
labor produced it.

President Judson of Chicago has
been granted six months leave of ab-
sence for the purpose of studying
medicine, surgery and public health
in China.

THE SMOOTHEST TOBACCO

Pink! That's our recipe for taking the
bite out of good tobacco leaf. We hang
the leaf in the warehouse for two years-
temperature and ventilation perfect—all
hardness disappears. A mellowness pre-
vails that gives superb flavor and a smooth-
ness seldom found. This is the good old
fashioned way of maturing good leaf—and
Velvet is a startling example of tobacco
goodness. Sometime when your pipe is
burning hot and the taste is flat—try
Velvet! At all dealers.
