IMPORTANT

DETAILS OF YISH-KA-BIBBLE ANNOUNCED

Today's little story is merely a recapitulation of a few of the features of "Yish-Ka-Bibble." In the first place remember that the whole entertainment, including the dance that is to follow, is to be entirely informal. This means that the dress suit is to be taboo. It is believed that this arrangement will tend to give everybody a much better evening and will add much to the enjoyment of the occasion.

Not only is the dress to be absolutely informal but the seating arrangement in the hall is to be so likewise. There are no reserved seats. There are, however, reserved sections—one for the faculty and one for the tumblers. The best seats in these sections are in front of the remaining places in the area are strictly first come, first served.

Last but by no means least, the dancing is perfectly informal. There will be no dance orders to complicate things and to put a certain restraint upon the gaiety that is sure to prevail. This is to be just a happy gathering of institute undergraduates where dancing is the form of entertainment provided. There will be plenty of room—remember the fact that both the upstairs and downstairs parts of the Union are to be used. The T. C. A. has secured for the cast, and all in probability he will make the final selection this afternoon. Every man out for the cast must be on hand promptly at quarter past four.

The chorus men are to be given dancing trials this afternoon in the Union Dining Room. Mrs. Adams will be present to try out the men and to start their practice. The entire chorus and the following men are to report: Ford, Cooper, Haney, White, Tomorino, Bidwill, Bell, Staub, Gillies, Holt, Lowe, Duff, Coover, Hardwick, King.

SPEAKER THURSDAY

Rev. Mr. Vernon To Give T. C. A. A Talk for First Time

The T. C. A. has secured for Thursday's talk in the Union the Rev. Mr. A. W. Vernon, who will speak to Tech students for the first time. Mr. Vernon is pastor of the Harvard Congregational Church at Brookline, one of the churches that contributed to the T. C. A. fund to send delegates to the recent Student Volunteer Convention held at Kansas City.

Mr. Vernon, who is the author of several books, will speak on "On Important Proof of Christianity," a subject which will without doubt attract a large crowd of men.

FRESHERN-REVERSE

First and Second Teams To Play Basketball Tonight

The 1917 basketball teams, both first and second, will play the first and second teams of Revere High School tonight at the Gym. It is expected that both games will be close as Revere has sailed a good reputation in this sport this season.

The guards on the first team, Nash and Pryor, are considered the strongest schoolboy guards in the state. Their forward line, however, is a triffe weak. Of the two teams representing Technology, the first team has shown up well so far this season, but the second team lacks experience and practice.

The result of the practice of the first team shows that the team was on a slump when at Dartmouth last week and that they are due for a reversal of form.

DANCING TRIALS FOR SHOW CHORUS

Coach Sanger Expected Today—Final Selection of Show Cast

Things connected with the Tech Show may become more lively today with the arrival of Coach Eugene Sanger. Mr. Sanger has made a success of the shows given by Technology during the last few years, and may be expected to do the same with "A Royal Jumble." His first work will be to reconvene the Freshman-Sophomore meet. These will be picked by the assistant publicity manager, Techno.

FRESHERMEN CAPTURE THE INDOOR MEET

Sophomores Lose Out by Small Margin—Distance Runs The Feature

The Sophomores, as expected, were defeated last night in the meet against the Freshmen in a closely contested meet by a score of 27-1/4 to 34-1/16. The meet was as well attended as the usual indoor meets are. The Sophomores have a lucky cheering section of six men and made considerable noise, but the Freshmen were handled by Phila.ing the first and second teams representing Technology, the first team has shown up well so far this season, but the second team lacks experience and practiced. The result of the practice of the first team shows that the team was on a slump when at Dartmouth last week and that they are due for a reversal of form.

COVENTRY, ENGLAND

The Coventry Prefects have inaugurated a new system of large scale football colonies which are proving a real success. The system is to be introduced in the schools and is expected to spread to all parts of the country.

C. B. SAWYER TO TALK ON "ROPE DRIVING"

M. E. Society To Hear of the Most Improved Methods in Rope Transmission.

The talk on "Rope Driving" which is to be given before the Mechanical Engineering Society today in 11 B is on a subject of particular interest to Engineers and the Society is expecting a large attendance. Mr. C. B. Sawyer, of the Dodge Manufacturing Co., will be the speaker, illustrating his talk with lantern slides.

Rope transmission is a comparatively new section in its modern developments. It is not only applied to small pulleys but also to the largest sizes, pulleys that are usually driven by belts. The Dodge Manufacturing Co. makes all kinds of rope transmission, ranging from pulleys a few inches in diameter to those that are used on the main shaft of the largest reciprocating engine.

Mr. Dodge will demonstrate by means of his slides the English and American systems of rope driving. The characteristic features of both systems, their advantages and their disadvantages, will be fully taken up by the speaker.

The Canadian Intercollegiates went to Queens College this year. This is the first championship Queens has ever won in intercollegiate sport.

Seventeen men at Williams left college after mid-years and ten seniors fulfilled the requirements for a diploma at that time.

WEATHER

Colder today; brisk to high north-west winds.

CALENDAR

Wednesday, March 4

4.00—M. E. Society Talk, 11 B
4.15—Meeting of Candidates for Assistant Publicity Manager, Technical Monthly, Upper Tech Office
4.15—Dance Trials, Chorus and Ballet, Dining Room, Union
