When the Tech wrestling team meets Yale tonight, there will virtually be a battle for the intercollegiate championship, as Yale has beaten most of the best college teams in the United States. Tech already holds, and has held for two years, the club and college championship of New England, having defeated all the prominent teams. Next Saturday night Tech wrestles the Boston Young Men's Christian Union for the team championship of New England, which title Tech holds at present. Neither team has lost a match this year and the coming contest promises to be a hard fought one.

Tonight's meet will undoubtedly be the last Tech has had this season. Yale has always put out a good, strong team. The team will be picked from the following list: 115 pound class, Captain Kelly and Mann; 125-pound class, Smythe-Martin, Durkee and Rounds; 135-pound class, Trust; 150-pound class, Walter and Goodell. Heavyweight class, Crowell and Leslie.

The program will decide the fate of the teams. There will be a very important meeting of the Tech Telephone Exchange Monday evening to elect a successor for the position of Secretary. The meeting will be held in the Quadrangle.

SHOW MEN ACTIVE

Ballet, Cast and Chorus Busy—Cast Rehearse Today.

Yesterday afternoon all three departments of the Tech Shows were busy, and the candidates for positions in the stage department were kept on the jump taking care of the mechanical details. In the Union Dining Room Mrs. Adams had charge of the bookings of the artists. The ticket sellers who are improving wonderfully, while in one of the smaller rooms above both the cast and chorus did their best to

POSITION OF THE NAVAL ARCHITECT

Prof. Everett Shows Relation of Naval Architect to Ship Owner.

The ideal position of the Naval Architect and the tremendous aid he can be to the ship owner were outlined in Prof. Everett's talk to the Naval Architectural Society yesterday afternoon on the "Relation of the Naval Architect to His Client." He has been much used, especially in America. Any man who has been on a boat a few times can add the letters "N. A." to his name. On the other hand the titles of "Doctor" and "Lawyer" are carefully protected. This is due largely to the fact that these latter professions are much older. People have had suits and lawsuits much longer than they have had steel ships. While the ship is being built, the Naval Architect is at present President of the club. He has been on his campus relay games both years and captained it last year. He also held the position of Associate Editor-in-Chief of THE TECH. He is a member of Beta Theta Pi and Sigma Nu.
