Coach Kanaly was probably right in the point he brought out at the track meeting last Monday, to the effect that there is material now down at the Institute, which, if it could be brought out, would effect for us the New England Championship. Besides her own men, of a type imbued with the true Tech spirit of hard and faithful effort, the Institute draws a large body of men from other colleges who have done good work in athletics. If these will only come out and put in a little time this spring, the resulting championship season will be just the right start toward the accomplishments which await us in the New Field across the river.

A notable instance of lack of system comes from the Freshman Class, which seems to have a number of mutually exclusive committees for each piece of work. One vein is the action of the other, which instantly takes great pains to reciprocate. Something of this nature took place with regard to the baseball management, and now a similar situation seems to exist in the announcements concern- ing the "Prom," or "Glee" (according to which committee is speaking) which the class is planning. They take turns at contradicting each other's statements and blaming THE TECH for having printed them. We request that hereafter all information given us for publication be accompanied by sworn statements from all the class officers.

This is not "a-long-time-ago" story

A few years ago we made up a cigarette from the patent and clavier of tobacco—our thought was, who shall we give them to first—senators—clubmen—sportsmen—college men? We sold the first Fatima Cigarettes in the college towns—well, you all know their phenomenal success. Today more Fatima Cigarettes are sold in this country than any other brand!
