STORIES FOR PRIZE CONTEST RECEIVED

Contest Will Close Monday at Four—Five Dollar Prize.

Seven short stories have been received in response to the call for fiction issued last Tuesday. Of these three were submitted by a Senior and the others by members of the lower classes. Besides those that have already been received, many of the undergraduates have signified their intention of handing in stories and a number of these are reported nearly finished.

The length of the stories is not limited.

The contest will close Monday at five o'clock and no entries will be received after that time. The prize is five dollars.

SHOW REHEARSALS

Cast, Chorus and Ballet Today—Orchestra Picture.

All departments of the Tech Show rehearsed together again yesterday, and a large amount of work was accomplished. Since the orchestra picture is wanted for the program, another engagement has been made with the photographer.

Rehearsal of both the cast and chorus this afternoon.

MRS. ADAMS WILL CHARGE OF BULLET REHEARSAL WHICH WILL START AT 4.15, IN THE UNION DINING ROOM.

COPY FOR MONTHLY

Professional Society Reviews Due Today at Four.

All copy to be run in the Professional Societies Department for the next issue of the Monthly must be in today at four o'clock. These stories may be left at the Cage addressed to the "Editor Technology Monthly" or at the ETCI office. Any writers who have not their copy ready should have a note for the Editor.

PONY REHEARSAL

The show ponies will rehearse this afternoon in the Union, Room B, from 4.00 to 5.00.

Professors at Cage Teens doubt the success of the time change in Cleveland. After May first Cleveland will have Eastern time.

FREE MOVIES NEXT FRIDAY EVENING

Two Thousand Feet of Film Will Be Exhibited by C. E. Society.

The Civil Engineering Society is planning to stage one of its annual feature meetings next week, when it expects to fill Huntington Hall. You'll all like movies, and here is a chance to see some with your absolute free of charge. The meeting will be held next Friday evening, March 29, at 8 P.M., and there will be a half an hour of movies interspersed with a short talk. Two thousand feet of film will be shown.

What is it all about? Everybody nowadays has occasion to ride in an automobile over city streets or country roads, and it is seldom they miss a chance to "cuss out" some bad stretch or comment on the smoothness of other roads. Next Friday night you will have a chance to both see and hear how good roads ought to be and be built. A representative from the Warren Bros. Co., one of the leading road construction concerns operating today, will talk.

(Done on Page 3.)

DANCE AT THE PLAZA

Southern Club Will Have Social Event Saturday.

The Technology Southern Club will have the following attractive program at its dance Saturday evening at the Copley Plaza.

3. Two-step. Sit down you're rocking the boat.
5. Two-step. Horse stare.

INTERMISSION.

In order to provide for the stages, and to permit every one to dance with others than those on his program, "breaking in" on the encore will be permitted. The floor committee urges that everyone be present at 7.45, as the music will start at 8.00 o'clock. This will give the committee ample time to introduce all the dancers and to see that their programs are filed.

T. C. A. SPEAKER IMPresses STUDENTS

Vigorous Applause Given to Mr. Francis' Speech on Ideas.

The T. C. A. talk given yesterday by the Rev. Mr. James A. Francis of the Clarendon Baptist Church was short, but, to judge by the applause, was gratifying to the audience. Though Mr. Francis spoke only ten minutes, all agreed that he said a good deal in that short time.

He said that Tech men are exposed to the temptation of forgetting the ideals for which they are engaged in work of a practical nature. They are likely to forget that material things are not the most important. High ideals said the speaker, rule the world.

All men are idealists, to a greater or less extent. The ideals of all people are not necessarily good, some are mean and bad, but still they are shared as ideals, because they represent what the man is striving for. A man's greatness is not measured by so much as the things he does as by his ideals. It is the ideals he has to entertain that mark his worth. Young men, said Mr. Francis, often have high aspirations, but older men have often outgrown those. When Mr. Francis sees a man who has grown out of his ideals, he tries to find out what the man has grown into.

Usually it is money making and easy living that replaces the early ideals.

COSMOPOLITAN CLUB

Tickets for Dance March 28—For Sale in the Union.

The Cosmopolitan Club has decided to make the dance on Saturday, March 28th, a memorable affair. Besides the entertainment which is given promptly at eight o'clock in Huntington Hall, arrangements are in progress to make the dance novel in every respect. The prices of the entire evening is well within everyone's means, for one dollar covers the cost of two tickets.

Tickets will be on sale in the Union daily at one o'clock or may be obtained from any of the members.

The committee has had in view obtaining three of the most popular matrons around the Institute, and their presence will be an added attraction to the evening. Dancing will last until twelve o'clock, and the program will be one that every one will enjoy.

Members of the Harvard Cosmopolitan Club have signified their intentions of coming, so in order to get good seats be sure and come early.

ELECTRICAL SOCIETY ON TRIP TO EVERETT

The Electrical Engineering Society took a trip yesterday to the plant of the New England Gas & Coke Company in Everett. The party started in by inspecting the coal handling machinery. The company uses 1,500 tons of coal a day and produces about 1,250,000 cubic feet of gas. The party next went over to the returns where the coal is freed. These returns are arranged in two long double rows. The men then went to the condenser house where the ammonia is taken out of the gas. The anhydrous is treated with time plus sulfuric acid, forming ammonium-sulfate, which is the most valuable by-product of the plant.

The party was then taken to the scrubber house where the dust is removed from the gas. This completed the sightseeing, as the party was not able to visit the house where the gas is manufactured. That building was the property of the Boston Consolidated Gas Company, so the men started back at four o'clock.

INSTITUTE COMMITTEE

There will be a special meeting of the Institute Committee this afternoon at five o'clock in Room 8 Engineering C. The report of the committee investigating the reorganization of the Cooperative society will be considered. In addition a report from the Tech Advisory Council will be heard.
