SECRETS IN MAKE-UP OF TECHNIQUE

Mysteries To Be Divulged Later
—Licent to Tech's Mr. Smith.

There are two big things that it is not customary for the Technique Board to divulge before the appearance of the book, but Technique 1915 does not see why there should be so much uncer- tainty concerning all good things. They have stated without hesitation that they are giving the students the best book that has ever been pub- lished and they have enumerated the various good points of their publica- tion. They have not merely said that their book was the best, but they have said without hesitation that it is the best book that has ever been published.

SPECIAL DRILL

Extra Work Necessary To Prepare for Coming Inspection.

The cadet corps is to have special drill during the next two weeks, to prepare for the inspection which will be made by a United States Army officer on April 6. As this is about six weeks earlier than the inspection is usually made, the work is not as advanced as it should be. In order to make up the deficiency, the drill on Wednesday of this week and next will last from 4 to 5 P.M. The periods on Monday and Tuesday will be as usual.

Later in the Spring, when the weather is warmer, and drill work will be less pleasant than it is now, this extra work will be more than made up for by letting the men off.

SHELLS NEARLY READY

Work on the two Technology shells is progressing rapidly. Con- structor Davies says they may be ready even before April fifteenth, since one is already planked and will be finished before the other. The other is about ready for planking. They are forty feet long and twenty inches wide.

A general meeting will be held April 1 in order to get together the men who are interested in the crew.

CLASS DAY COMMITTEE

Balloons Due Today

To Be Left At The Cage By 5 O'Clock—All Balloons Must Be Signed.

All Balloons for the Senior Class Day Committee must be in at the Cage this afternoon by five o'clock. The committee in charge of the election wishes particularly to call attention to the fact that the success of Class Day depends largely upon a full vote of the class.

Several unsigned ballots have been handed in. All Seniors should re- member that all these will be thrown out. In case men have not paid their class dues, they may hand them in at the Cage with their ballots, and their votes will be counted. The ballots may be obtained at the Cage.

TECH BOWLING LEAGUE

Garrison Team Still in the Lead

—Matches This Week.

At the end of the fourth week of the Tech Bowling League season the Garrison team is still in the lead with the faculty Rogers team second and the Pierce five third with one match left to roll off. Mr. Mackenzie is now tied with Vose for the high average at 95, both having dropped off a couple of points. Vose's three string total is still good, the Garrison have captured the team total rolling 449 against the Walker team. The schedule for this week is Lowell vs. Union, Tuesday at eight o'clock; Pierce vs. Walker, Thursday at 4:30 o'clock; Rogers vs. Garrison, Friday at 1:30 o'clock and a postponed match between the Pierce and Lowell teams. The date of which is not yet decided.

The standing to date is:

| Team            | Score
|-----------------|-------
| Garrison        | 73    |
| Rogers          | 51    |
| Pierce          | 47    |
| Union           | 40    |
| Committee in charge | 10 |
| Walker          | 2     |
| Lowell          | 1     |

Individual averages—Mackenzie 96, Vose 95, Hardy 94, Heath 91, Cosgrove 91, Vose 90, Lewis 95, Mann 88, Proctor 87, Yell 86, Covitt 85.

W. P. KEITH

claimed orders, after that, will be sold.

In filling out the blanks the appli- cant must be careful to put his school name and, under the new rule of not only one of the Boston organizations, but of both of the two. The Boston Y. M. C. A. is located at 48 Bayston street. The president of that Union is a Tech man, Mr. Frank Locke.

Any man wishing to partake of the opportunities thus offered and who are not members of the T. E. A., may become members by signing the membership card of the Assocation, and thereafter they may obtain their privilege card from the General Secretary at the T. E. A. office in Eng. H.

PRIVILEGES TO TECH MEN

General Secretary of the Techno- logical Christian Association, Mr. L. Hay- mond Talbot, announces that the Young Men's Christian Union of Bos- ton has offered the T. C. A. the same facilities and privileges that are ar- ranged for with the Y. M. C. A. recently. Day Class men of the Tech men who are members of the T. C. A. may have upon payment of one dol- lar the privileges offered by both the Y. M. C. A. and the T. E. A. These privileges include, among others, the use of the gymnasium and the swimm- ing pool, at the usual membership fee.

The only condition on the part of the Tech men at the Institute is that they be members of the Technological Christian Association, and that they hold the tickets received from the local organization upon payment of the fee of one dollar. This ticket, when used, entitles them to the privileges of not only one of the Boston associa- tions, but of the two. The Boston Y. M. C. A. is located at 48 Bayston street.

WEATHER

For Boston and Vicinity: Unsettled, generally fair; Tuesday to west winds.
