MOVING PICTURES

FOR LADIES' NIGHT

Civil Engineers' Extend General Invitation To Attend

The feature meeting of the year of the Student Body of the University will occur tonight at eight when Mr. H. L. Perkins gives his illustrated talk on "Road Building".

Mr. Perkins is the superintendent of Roads of the Warren Bros. Co., who are well known road builders. The talk will be fully illustrated by lantern slides and moving pictures that the speaker brings with him. A general invitation has been issued by the society to all members of the student body to attend. In addition to this the committee in charge has decided that the affair shall be a "ladies' night".

Mr. Perkins will deal largely with the construction of modern country roads and modern road building with emphasis on bituminous concrete mixtures for these roads. He will illustrate his points by lantern slides showing the difference in grades of the mixtures and the different makes of various contractors.

The actual process of paving will be shown by the moving pictures. These were taken while certain roads were being constructed and illustrate the operation very well. A ladies' night occurs also of some of these pictures will also be shown of some of the work that is now in progress.

TECHNICAL BAND MEET

All Popular Tunes Are Being Well Rehearsed

The Technical Band met yesterday afternoon and are now well rehearsed all the latest popular music. A large number were out for the band and at the present rate of interest, the band will be a great factor in making the parade to be held on the day of the Technical rush a success. Under the leadership of Sousa Brook and with Anderson at the bass drum, the band will surely make an impression on Boston people when they hear the music.

The course of the parade this year will be the same as that of last year, starting from Rogers' steps, down Beacon Street to Dorchester, along Dartmouth Street to the Copley Plaza. The parade headed by the band will then proceed around the Copley Plaza and will finish its course at the empty lot in the rear of the hotel. It is the plan of the Technique Rush Committee that every student shall meet on Rogers' steps at noon the day of the parade and take part in making the parade a success.

OUTDOOR TRACK

Field Will Be Opened Saturday Afternoon

The spring outdoor season commences Saturday afternoon when practice will start at the field. All Freshmen who are substituting track work for gym are required to report and all varsity men are expected to show up. With the opening of the field held over for a week, track work was not back that far, and the order to overcome this handicap it is expected that a large majority of the team will be available. It is necessary that they do this as the interclass meet and the Bowdoin meet are only a short way off.

The ground keepers have been busy the last few days getting things in readiness for the meet and the track from all indications will be in very good condition.

SHOW APPLICATIONS DUE SATURDAY--5 P. M.

Institute Committee Holds Meeting

Committee Appointed To Arrange A General Convocation Or Smoker

The report of the Union Committee for the program consisted of a little entertainment, the singing of Tech songs, talks by members of the Institute activities, and a report to the undergraduate body by the Institute Committee. Considerable discussion took place as to whether the affair should be a convocation or a smoker. Much was said favorably on both sides but no definite action was taken. The matter was left to a committee.
