The luminous scenic effects were completed even to a disinterested passerby. The parade began. Across Clarendon, Pierce and the Plaza had been darkened in due order. By the time the erection of the death house, the victims previously lined up along the great semi-circle scratched in the dirt, there was a success. Director-General H. O. Davis of the San Diego exposition declares that all plans for this year provide for intercollegiate rowing, in the main the quality of the material that has turned out so well for a fast varsity crew next year. The men have worked out consistently almost every afternoon in the new sheds for which, were contributed by the Alumni, and the shells of the Boston Athletic Association. Between fifty and sixty men have reported, about twenty-five of whom are freshmen.

Coach R. L. Stevens has not found a first book and Fletcher '15, who re. the "little window" was opened a minute later there was another report and the line changed the structure. The framework of the sides was fixed in hot the braces held it and withstand the shock until the last "lute window" opened a minute later. Treat '14 captured the first book and Fletcher '15, who re. into better shape. At present it appears as if N. V. Mansfield would stroke, C. E. Sittman row three, H. B. Salin, two, J. S. Howells, one, and A. H. Anderson, coxswain.

In the Sophomore crew there are at least ten or twelve men that are making strong tries for positions on the first crew. These men are E. W. Lucas, coxswain; L. R. Donaghey, third seat; H. D. Bissette, J. Nelson Jones, cox; and S. Rane Berkowitz, stroke. Bissette has been given a chance at stroke. Duff has switched from the part to the starboard side and Berkowitz has had a couple of tries at two. Lucins Hill has also been given a chance at stroke and has kept the men in back of him rowing smoothly. Marnix looks like his position, at three, number two seat. He is still unsettled, and Duff is not positive of holding down bow permanent. The need of a publication of this kind has been evident for some time; and on several occasions during the past few years, organizations have been formed for the purpose of turning a literary magazine; but it has never been established for members of the present Junior class successfully to establish and maintain this venture.

The first issue of the Monthly appeared March eleventh, and the policy of the magazine was set forth by the editor as follows: "In view of the position occupied by the Massachusetts Institute of Technology in the scientific education of the country it is a notable fact that no suitable outlet has ever existed for the literary potentiality which must exist among her undergraduates. It is this lack of opportunity for the expression and circulation of ideas among alumni and undergraduates which the Technology Monthly aims to supply."

The Technology Monthly has made elaborate preparations for the entertainment of the students at the Junior Week. In most cases the festivities start today and continue throughout the week. Alpha Tau Omega will attend the Show and Spring Concert in a body. Dinners will be held every night and Wednesday and Saturday will be ladies night. Delta Tau Delta will hold a Tea at 5:00 o'clock this afternoon, while Delta Upsilon will hold one tomorrow afternoon.

The Delta Chi will hold a house party extending until Tuesday. This evening an informal dance will be held at the Chapter House. Sigma Alpha Epsilon will present the musical "Fairy Foot" at the Tuileries this afternoon from 4:30 to 7:00 p.m. A house party will be held during the week by Alpha Phi. The Alpha Phi Tea will be held from April 29. Theta Chi will hold a house party throughout the week and the Alpha Phi Tea will be held tomorrow afternoon from 4:30 to 6:00.

Many House Parties, Teas, and Dances Figure in Junior Week Programs.
