If you have ever been up North far enough

THE TECH, BOSTON, MASS., THURSDAY, APRIL 23, 1914.

THE CLASS OF 1914 is still holding her own place in athletics at the Institute, as was shown in the interclass meet of last Friday.

Cornell's fastest man in the four-mile relay triale held in preparation for the Penn carnival covered the mile in 4:38, which is nearly two seconds slower than Guething's time in the mile at the interclass meet. Cornell's slowest man on the team covered the mile in 4:44. The difference of weather conditions undoubtedly showed up the trials as they were run on an outdoor track in the rain.

Jimmy Powers, the crack B. A. A. miler, in back from Australia, where he cleaned up things in good style is now working out on the track at Tech Field.

The mile run in the interclass meet showed several points that will have to be covered up before the legiate meets. A little head work goes a good ways towards winning a race.

G. T. Guething can be well congratulated on winning the cap in the mile for the second time. Considering that he was far from being in the best of condition his win is all the more notable.

The contests between Loomis and O'Hara afford quite a little amusement. O'Hara seems to delight in trimming Loomis in the hundred but Loomis gets a good comeback in the 220.

It seems too bad that we will not be able to send at least one team to the relay carnival to represent Technology, but the Bowdoin meet will go further to help out the team as a whole than the sending of a hopeful. The famous Harvard first started in the college towns, and today they are the biggest selling cigarettes in the U.S.A. Plain, hand-wrapped package, but inside, twenty of the greatest ever.

THE PERFORMANCE OF TECH SHOW TO BE GIVEN TONIGHT AT DANA HALL FOR THE BENEFIT OF WELLESLEY COLLEGE, WHILE IT MAY NOT BE Altogether altruistic in motive, it is an excellent example of co-operative helpfulness and shows the presence of a spirit of generosity among those traditionally selfish beings, college students.
