TECH TEAM MEETS BOWDOIN TODAY

Fast Times at Brunswick Promises Exciting Contest This Afternoon.

This afternoon the Track team holds its dual meet with Bowdoin at Brunswick, Maine. As they were leaving the North Station yesterday noon the men felt confident of victory, despite the fact that O'Hara is unable to run.

The track at Bowdoin is reputed fast and very good times are expected. The lower class baseball supremacy will be decided by Junior and Freshmen who play the game after the races. Loomis and Smart and Miller will probably start. The trials for the Holy Cross meet are being held and the annual game between the two teams may be obtained at the Cage and at the Union.

This afternoon at 3 o'clock, the Sophomore class will meet next Monday, Thursday and Saturday. Prof. Wilson will give a talk on "The Fourth Dimension." Prof. Wilson will discuss the world on this subject, and the activity considers itself particularly fortunate in receiving him to speak. The meeting was started several days ago to take place last night, but was postponed in order not to conflict with the meeting of the American Chemical Society which was scheduled for the same date.

CHAUNCY HALL BALLOTS

Last night showed no more names added to the list of those who had turned in Chauncy Hall Ballot Tickets than those mentioned perhaps, that the club might have to go out of existence, but on such a result the members have taken any active interest in the election. Chairman Wainwright of the ballot committee and those interested in the existence of the club, hope that further members will have been too busy with the events of JAC week to lend to this matter, but they earnestly hope that more of the fellows will wake up and keep the club alive, by getting their ballots in by five tonight.

TECH "ARMY" HOLDS ITS FIRST DRILL

Under the leadership of General "Rosy" (Fee) While the War Meeting was held last evening exactly as announced in yesterday's issue of THE TECH. At precisely 6:00 the orders were given by Head Rugger Fry to blow the "Fall In." As no other members of the band were then present the command was given by T'o'clock. The recruits could be seen hastening out of houses and other hiding places.

A reporter with Major Cole as soon as possible. Previous military experience is not necessarily required.

FOURTH DIMENSION

Prof. Wilson To Speak Before Chem. Society Wednesday.

The next meeting of the Chemical Society will be held next Wednesday evening at 7:45 in the Union, at which time Prof. Wilson of the Mathematical Department will give a talk on "The Fourth Dimension." Prof. Wilson will discuss the world on this subject, and the society considers itself particularly fortunate in receiving him to speak. The meeting was started several days ago to take place last night, but was postponed in order not to conflict with the meeting of the American Chemical Society which was scheduled for the same date.

MUSICAL CLUB CONCERT

The combined Musical Clubs will give a concert at Hingham at 5 o'clock this evening. The concert will be followed by a dance to which all the members are invited. The concert will be held at 6:00 on a special car which will be attached to the regular train.

CROWELL ELECTED WRESTLING CAPTAIN

Morse Is Manager—Dean Burton Congratulated Men on Fine Showing.

That the wrestling Team has for the last two seasons been the most successful athletic team representing the Institute, was the statement made by Dean Burton at the Wrestling Banquet given last evening at the Union. He went on to say that the greatest of praise was due to the wrestlers and especially those who were instrumental in first getting the sport under way. The Dean expressed his opinion that the cleanest and most wholesome fellows in any school were to be found interested in athletics and that this fact was no where more noticeable than in the case of the Wrestling Team. Not only does wrestling develop the whole body more than any other form of athletics, said the speaker, but it gives a man a certain confidence of contact with his fellowmen which nothing else can approach. Dean Burton closed by offering his most sincere congratulations to a team which had won the Eastern intercollegiate Wrestling Championship for two consecutive seasons.

FACULTY NOTICE

Mr. Smith's Monday Freshman English class will meet next Monday.
