The Committee which had charge of the Technology's chances in the New England Intercollegiates. It looks as if Leslie and Fox will easily win places, but the hammer and discus will probably have to go by default as far as Tech is concerned. Taken as a whole the Holy Cross meet will give Coach Kataly and Captain Guething an excellent opportunity to forecast the position which Technology can hope to win at the Stadthon May 23rd and the excitement of the competition will furnish well up in both of the Inter-collegiates. Tech's hopes in the hurdles received a setback today on account of the illness of T. Huff, but it is hoped that he will be back in shape by Saturday. The high-jumpers and pole-vaulters will have to show improvement if they wish to help get the championship of New England. It looks as if Leslie and Fox will easily win places, but the hammer and discus will probably have to go by default as far as Tech is concerned.

The nominations at present are as follows:

- President, Rafael Alfaro, '16
- First Vice President, Te Chen Hsi, '15
- Second Vice President, Rudolf Breuer, '17
- Secretary, Eduardo B. Sardi, '16
- Treasurer, Joseph Steventon, '15
- Assistant Secretary, George H. Cameron
- Assistant Treasurer, Alfred B. Hall, '15
- National Chairman, American, Steward Keith, '15
- Latin American, Gustave A. Saldaña, '16

The Committee is very sorry that no more nominations for National Chairmen were turned in, and it is hoped that the members will designate their choice for this office immediately. The elections are to be held at the annual supper in the Union, on May 9, and it is very important that every member of the Club reserve this date, as it will be impossible for any one to vote who does not attend this meeting. The final nominations will close at 5 o'clock on Monday, May 4, and no nominations can be accepted after that date.

BOARD ALL SELECTED

Work of Electoral Committee Finished in Good Time.

Yesterday the Technique Electoral Committee elected A. R. Storm to the position of Grand Editor of the 1916 year book. Storm is a member of Course X, and comes from New York City. Last fall he was on the year book. Storm is a member of Sigma Alpha Epsilon.

The results of the Holy Cross Meet will give a good indication of Technology's chances in the New England Intercollegiates. It looks as if there would be no one on the Holy Cross team able to compete with Wilson, Loumis, and O'Hara in the sprints, but the performances of these men on Saturday will give an indication of how they will compare with Osman of Dartmouth, and "Charlie" Rice, formerly of Powder Point school and "Charlie" Rice, formerly of Powder Point school and now of the University of Maine. If Captain Guething defeats Lee of Holy Cross in the quarter-mile it will give evidence of his chances when running this distance against other New England men.

G. T. Guething and D. P. Thompson will be placed against Hampden on Saturday and a victory would be well for a Tech victory in the half-mile in the New England Intercollegiates. It will not have much competition in the sprints, but Hampden of Holy Cross, is said to be a good man at that distance. Fred Cough should break the Technology record in the two-mile if he is pushed, and if he does there is little doubt about his ability to on as could be desired.
