SIGMA XI key, engraved with name, W. R. Burns. Return to 29 Walker.

MECHANICAL BANQUET
WITH NOTED SPEAKERS
(Continued from Page 2.)

some important hints to Senators looking for positions, and declared that of prime consideration is the business integrity of the employing firm.

Prof. Russell took his listeners back a change to a period fifty-three hundred years ago with an interesting discussion of the probable origin of the pyramids. His remarks seemed to conclusively demonstrate that they are not monumental tombs of Pharaohs, but were in their time gigantic astronomical observatories.

Prof. Miller concluded the formal speeches for the evening with a description of the A. S. M. E. and the advantages obtained by student membership in it. He emphasized the care taken to preserve the society's reputation for a high standard of integrity, and emphasized this as an important quality for the engineering student to cultivate.

The banquet, which was held at the American House, was attended by over seventy-five members of the Society. After the meal the chairman announced the results of the election of new officers. They were: Chairman, F. G. Purinton; vice chairman, N. R. Kimball; secretary, H. E. Morse; treasurer, G. A. Palmer; governing board—F. L. Cook, W. R. Hanchett and O. C. Norris.

Printed copies of Tech poems were given to each man and between the speeches and orders for rifles. The matches and orders for rifles may be obtained from E. J. Casselby.

ELECTION OF OFFICERS
Architectural Society Holds Annual Election.

At a meeting of the Architectural Society held yesterday afternoon in Room 42 Pierce the following officers were elected for the ensuing year: President: H. F. Sabin, '15; Vice-President: E. P. Norberg, '15; Secretary: W. G. Sprague, '15; Treasurer: H. W. Jackson, '15; Executive Board: F. S. Whartley, '14; O. R. Freeman, '25; U. C. Scheese, '15.

The smoker will be held this evening in Room 11 B. "Flat Slab Construction" will be the subject for the meeting.

The fourth annual tournament for the interscholastic titles in singles at Jarvis Field May 9th and 11th.

Tufts had thirty candidates report for the track squad, nine of whom were veterans.

LOST

In Room 25, Engineering A, a copy of Kimball's College Physics, with name Ralph Milita. Contains loose sheets with formulae for computing alternating current. Please return to THE TECH lower office.

RIFLE CLUB TO HOLD ANNUAL MEMBERS, MATCH
Opportunity To Qualify For National Association Buttons.

Outdoor practice of the Rifle club has been going on for about a month at the Walnut Hill Range with great success and on Saturday, May 9th, it is announced that the annual "Member's Match" will be held. The conditions of this match are the same as those of the Intercollegiate match, namely: At 200 yards, ten shots high fire, eight inch bull's-eye; at 300 yards, ten shots low fire, sitting, eight-inch bull's-eye; at 500 yards, ten shots low fire, prone, white-inch bull's-eye. There is only one Saturday left on which members can practice for this match, before the 9th. The prize is a bronze medal. All members have a good chance of winning this medal since the conditions of the match are as unfamiliar to the old men as to the new.

There will be no outdoor practice on Saturday, May 16th, as on that date a team representing M. I. T. will shoot in the Intercollegiate Outdoor Match against teams from other colleges. This team is composed of six men and will be picked on May 9th from among those making the best scores in the Members' Match.

On Saturday, May 23rd, an opportunity will be given to members to qualify for the "Marksmen," "Sharpshooter" and "Expert" buttons given by the National Rifle Association. The qualifications are not difficult, as indoor rifle or no practice will be required for them.

Further information in regard to those matches and orders for rifles may be obtained from E. J. Casselby, '15.

The Perfect Tobacco for Pipe and Cigarette

Tuxedo—A Hit with the Hit-Makers

HUNDREDS of the snappiest ball players in the country—the clean-cut athletes who provide Americas with their greatest outdoor-relaxation—enthusiastically endorse Tuxedo. This is the kind of endorsement that carries a convincing punch.

These men know that Tuxedo is a mild, pure tobacco, which can be smoked all day with pleasure. Tuxedo cannot bite the tongue; it burns freely and smoothly, giving a cool, sweet smoke.

Tuxedo is made from the finest, mildest, leaves of high-grade Burley tobacco, so treated under the famous original "Tuxedo Process" that it burns slow and cool, with a delightful flavor and aroma.

The "Tuxedo Process" makes it impossible for this perfect tobacco to bite or sting the most delicate throat or tongue.

Tuxedo has many imitators—in outward appearance. It has no equal in the pipe or cigarette.
