SECOND ASSIST. TRACK MANAGER COMPETITION

Freshmen Candidates To Meet Manager in Union On Wednesday.

A call for more Freshman candidates for second assistant track manager has been given and the men will meet either assistant manager DuPont at one o'clock Wednesday noon or Manager Webster at four at the track office in the Union. The competition will last until spring when one man will be picked for the office of assistant track manager his sophomore year. He will then be elected track manager his junior year. In selecting the assistant considerable emphasis is laid on ability, and scholarship standing.

The position of track manager carries nine points under the point system and is one of the more important offices open in Institute activities. The manager is a member of the Athletic Association and is entitled to an A at or seven according to the quality of his work and is judged by the advisory council on athletics. The manager makes the various trips with the track and cross-country teams and represents the Technology at the I. C. A. A. A. meeting in New York in the spring.

FRESHMEN WRESTLING

Weekly Practice Starts Tomorrow.

Starting tomorrow, all Freshman candidates for the wrestling squad are expected to report on Wednesday afternoons. Mr. P. M. Gray of the drawing department will be at the gym from 4 to 6 on those afternoons. There is a fine opportunity for Freshmen to make the team this year, as men are needed in every class.

TECHNIQUE 1916

The competition for Assistant Business Manager of Technique 1916 will start today. Candidates for the position will meet in the Technique Office at 5 P. M., where the details of the competition will be explained. The office is not limited to one assistant, as in previous years, but two will be elected.

GYM TEAM

There will be a meeting of all men interested in gymnastics in the Union, Room B, at 5.30 tomorrow. Men trying for the team will be excused from regular work, which is judged good for the men who are not able to attend the meeting will please hand their names to Coach Kanan, and report to the gym on Thursday at 5.00 for practice.

ARCHITECTURAL MEN HOLD FIRST SMOKER

Mr. C. E. Morrow Talks On Use Of Steel In Structural Construction.

The Architectural Engineering Society had a small but very enthusiastic attendance at its first smoker of the present year last Friday evening, at which Mr. Clarence E. Morrow, instructor of structural design gave a talk on the use of steel in modern construction work. The method of designing the structure and the fabrication of the steel were clearly explained by the use of slides showing a view of the plant of the American Bridge Company at Gary, Indiana, and photographs of the various machinery employed.

H. W. Brown ’15 told a number of interesting experiences he had had while working on the erection of the new fish pier during the past summer. At the close of the meeting coffee and sandwiches were served and an informal discussion was held.

MR. TOWSON TO SPEAK

Will Discuss Human Side Of Engineering.

The first speaker which the T. C. A. permits to the students here this year, is Mr. Charles N. Towson of New York, who will speak in the Union Friday noon at one-thirty on the "Human Side of the Engineering Profession." Mr. Towson is the secretary of the Industrial Department of the International Committee of the Y. M. C. A. There are eight international secretaries of which he is chief. Four or five years ago the President called a conference, at which Mr. Towson was the speaker, and the number which then attended attested to the interesting nature of his talk and the remarkable knowledge which he has of conditions among the laboring classes and the problems that the young engineer has to face.

Mr. Towson is able, through his work, to carry on to obtain, perhaps, one of the clearest perceptions of labor problems and conditions and to present his views in a thoroughly interesting and convincing manner. Not only does he have to do with the professional and laboring classes, but he is actively concerned in the relation and co-operation between the college man as a college man and those other classes.

OPENING POSTPONED

The opening of the new field, scheduled for yesterday, has been postponed because the track is not yet ready.

AMERICAN SOCIETY OF MECHANICAL ENGINEERS

Technology Members Invited To Attend First Meeting. Of The Year.

The American Society of Mechanical Engineers, of which the Technology M. E. Society is a section, held its first meeting of the current season tomorrow evening at 8:00 in the Engineers' Club Hall on the corner of Arlington Street and Commonwealth Avenue.

A discussion of the means and methods of measuring the flow of fluids in their application to industrial and engineering problems will be taken up. Some of the types of apparatus in most common use in connection with the handling of water, oil, steam, gas, etc., will be described, with slides, by experts, who will also discuss their operating characteristics, limitations, fields of usefulness, and other pertinent features, as follows: The Venturi Type by Mr. Frederick N. Connet, chief engineer, Venturi Dept., Builders and Iron Foundry, Providence, R. I.; The Pilot Type by Mr. E. B. Brown, associated with General Electric Co., Boston; The Wye Type by Mr. D. R. Yarnall, treasurer Yarnall-Waring Co., Philadelphia, Pa.

The discussion will be followed as usual by a general discussion open to all. Members of the Technology Society are urged to be present and all interested are cordially invited, whether members or not.

TENNIS TOURNAMENT

Unusually Large Number Of Sign-Ups.

An exceptionally large number of entries were received for the Fall Tennis Tournament, and in order to have the tournament finished, the matches must be played off as soon as possible. Lower classmen must have the tournament finished, after which they will be defeated. The winner of the match is to post the score. Entry fees must be left at the Cage for H. H. Stewart before the first match is played.

TRAINING TABLE

The training table for the cross country squad will commence Monday, Oct. 19, at 31 Newbury Street. All members of the squad wishing to take part in the meets must sign up at the Cage for H. H. Stewart. The matches that will be played are as follows:

SOPHS HELD TO TIE BY WESTBORO TEAM

Game Marked By Penalization — Lack of Training Evidence.

Last Saturday afternoon, at Westboro, the Sophomore football team was held to a 6 to 6 tie by the Westboro High School team. The 1917 men outweighted their schoolboy opponents considerably, but showed lack of training and teamwork. Several times they rushed the ball near the whole length of the field to lose it on downs, or to be heavily penalized. At the end there was a team within fifteen yards of their opponents' goal.

Straight football was played throughout, andumbles were very few. Westboro tried four forward passes, only one of which was completed.

The lineup:

Westboro

M. T. 1917

Crowell, ------------, Bell, Dunham
Barten, H., r., Weilcomb, O'Brien
Robinson, l., --------, Powers, Sada
Canfield, c., ------, Tuttle
Arnold, r., -------, Merts, Story
Huntington, r., Whitney, W. C. Wood
Pigard, r., -------, W. A. Wood
Halpin, q.b., -------, Parnsworth
Lebeau, l.b., -------, Robet
Howell, r.h.b., Dunham, Simpson
Hankoff, t., ----, Moody, Hunt
Referee, O'Brien; Field Judge, Dancy; Timmer, Harper, Hankoff; Linesman, Hardwick, Cooper. Time, four fifteen minutes periods. Penalties, M. L. T. 1, 155 yds; Westboro, 40 yds.

CALENDAR

Tuesday, October 13, 1914.

4.30—First Mandolin Club Rehearsal, Union.
5.00—Glee Club Meeting, Union.
5.00—Competition for Aest. Business Mgr. Technique 1916, Technique Office.
