TECH NIGHT
(Continued from Page One)

avail himself of this opportunity. A year of Boston life cannot be called complete without such a feature as this.

And now who will be there? Well, there'll be our faculty and their wives, alumni young and alumni old, students of our sister institutions with a Technology feeling, our many Boston friends who keep in spirit with the activities here—and then Technology undergraduates of every course, country and kind. Some will come with fair friends and stiff shirts; others with just the idea of being in the crowd—but all will hear realistic grand opera with an all star cast.

On this eventful night the management will give us "Un Ballo in Maschera" with such artists as Kathrynn Lanyon, Blanche Foy and Fer

rancelo Carradite. The scene of this famous Verdi opera is told in our city of Boston. In the next TECH we shall tell you more about it.

Members of the Musical Clubs are now supplied with the tickets for this Night opera. If they fail to see you, inquire at the Cage where you will be accommodated. A portion of the proceeds from the sale will belong to the Musical Clubs and will be used by them in arranging a trip. In order that this reduced price may be obtained you will have to pre

order advance tickets from the Musical Club members; regular box office prices will be charged at the box of

ter. Get the tickets now and make the reservations at once, as this is going to be a big Technology occasion.

ARCH. ENG. SOCIETY

New Concrete Mill Building At Salem Will Be Visited.

The members of the Architectural Engineering Society will leave North Station at 2:20 today to inspect the new reinforced concrete mill building being erected at Salem for the Naumkeag Mills Company.

This plant is being put up by the New England Concrete Construction Company and is exceptionally well designed. About 200 cubic yards of concrete are being poured daily, both the wheeled and the "chuting" methods being employed. The work is under the supervision of Mr. W. F. Rockwood, '94.

All men in other courses who are interested are invited.

T. C. A. TALK
