Appointments Include That Of Chinese Assistant In Research.

At the last meeting of the Executive Committee of Technology, the following appointments to the instructing staff were made:

P. H. S. Chou, research assistant in Chinese studies;
John T. H. Tao, research assistant in Chemistry;
J. P. L. Lo, research assistant in Electrical Engineering;
Alexander S. Jenney and J. F. Lo, instructors in Architecture and Art;
J. P. L. Lo, research assistant in Architecture;
John H. Thompson, research assistant in Civil Engineering;

The reappointments include the following assistants:

George T. Rooney, Physical Education;
John H. Thompson, research assistant in Electrical Engineering;

Leave of absence has been granted to H. E. Thompson, research assistant in Electrical Engineering.

MECHANICS MEET

Mr. Fay To Speak On Fall River Work At Smoker.

The first meeting of the Mechanical Engineering Society will be held a week from tomorrow, on Thursday evening, October 29th. At this meeting, which is to be a smoker, the speaker will be Mr. Fay, of the firm of Fay, Spofford & Thorndike, consulting engineers. Mr. Fay is, Prof. Fay of the Institute, as was reported in Monday's issue. This mistake was owing to the fact that an erroneous notice was given in to the Tech.

HARVARD MEET

(Continued from Page One)

of the Harvard stars are not entered, but Coach Donovan has had over one hundred men working on the stadium track and is sure to have a strong and well balanced team. One hundred and fifteen men are at present working out under Coach Kanaly, and give promise of forming one of the strongest track squads ever produced at the Institute.

Owing to the fact that the new field has not been ready for use, none of the men have been able to get the proper training. The sprinters have been working at starting at the gym, but Coach Donovan has had over one hundred men working on the stadium track and is sure to have a strong and well balanced team. One hundred and fifteen men are at present working out under Coach Kanaly, and give promise of forming one of the strongest track squads ever produced at the Institute. The three-mile team will find matters slightly more even, for both squads have been working over the hurdles for the past few days, and in spite of the short training period, are running in fair form. Tom Gielings' loss will be severely felt in the quarter, where Tech for the first time in four years looks rather weak. "Cy" Gieling will probably run the half although he has been doing cross-country work all fall.

The three-mile team will find matters slightly more even, for both squads have been working over the hurdles for the past few days, and in spite of the short training period, are running in fair form. Tom Gieling's loss will be seriously felt in the quarter, where Tech for the first time in four years looks rather weak. "Cy" Gieling will probably run the half although he has been doing cross-country work all fall.
