FRESHMEN EASILY
TRIM M. A. H. S. TEAM

The Freshmen team in the second game of the year met Mechanic Arts High School Wednesday evening and came off the field winners by a score of 27 to 13. Mechanic Arts is rated as one of the strongest Boston High schools playing the game and the win of the Freshmen over them promises great content for the team.

In the beginning of the game the Freshmen line did not work with much uniformity and showed some lack of team work. However, the men played hard and succeeded in opening up several big holes in their opponents’ line, lettuce the backfield go right through unsubstantiated gaps. The backfield showed up strong and worked together well, showing good team work. Their work was so uniform that it would be hard to pick out the individual players. The Freshmen scored two touchdowns from punts, each time running with the ball after eighty yards. Ryan and Malley scored the other touchdowns and Gleason kicked three goals out of three chances.

In the first period Mechanic Arts kicked off to the Freshmen and Har- rat succeeded in running the ball back for about twenty yards. By a series of punt and recovery effort the ball was down the field into the opponents’ territory and, after changing hands several times, Ryan carried the ball over for the first touchdown. On the kickoff to Mechanic Arts they fum- ninged off the field, playing center for the Freshmen, got the ball. 1918 was forced to punt and the period ended without further score. The second period opened with a series of punts and rushes until the ball was down the field for a touchdown. Mechanic Arts then worked the forward pass in an effort to get a jump on the Freshmen, and succeeded in making a touchdown. After the kickoff the game was saved back and forth near the middle of the field un- til Clarin got the ball and repeated his performance of the first period.

In the second period Mechanic Arts’ second yard line in the open- ing of the second half, from where Malley scored a touchdown. The punt out of position failed. Abbott of Me- chanic Arts later in the period inter- cepted a forward pass and the high school carried the ball well into Tech’s territory by the end of the period.

Three rushes in the opening of the last period carried the ball across the line and gave Mechanic Arts her 13 points. The game ended with further score.

The summary for Tech’s 15: Gleason 2; Malley 1; Doon 1; Adams 1; Bannister 1; Mead 1; Jones, H.; Howe, Porter, Cordes 1; Clarkson, 0; Ryan, Mal- ley, Day 1; Gleason 1; Doon 1; Adams 1.
