of the meetings and get an idea of

RAPID PROGRESS
ON NEW INSTITUTE
Work Well Within Schedule Time—Site Visited by Tech Corporation.

This rapid progress which is being
New Technology is shown
the fact that two of the
buildings, those making right angles
the Chiswell Road, are already up
as far as the roof, while the inner
walls of the minor courts are up to
the third story level. The long build-
ings along the sides of the main court,
which it the departments of chemistry and mechanical engineer-
ing will be accommodated, are up to
the second floor.
All the other parts of the plant,
with the exception of the library,
have the first floor already poured.
This rapid progress brings the work
well up within the time of the sched-
ule, which calls for the concrete on the
roofs to be poured by December 1st.

THE FACULTY NOTICE
Mr. Cash is unable to keep his con-
ference appointments with first year
men on Friday and Saturday of this
week.

OHIO TECHNOLOGY CLUB
The Technology Club of Northern
Ohio will celebrate the opening of
their 1914-15 season by attending
the football game between Case School of
Applied Science and Kenyon College
on November seventh at Cleveland.
Afterwards there will be a dinner at
the University Club and the new offi-
cers will be elected.

TRACK NOTICE
Assistant Manager DuPont wishes to state that there will be no track
practice this afternoon.
