FRESHMAN RELAY TEAM Rounding Into Shape

The Freshman Relay Team is working very hard to get into shape for Monday's meet. Monday afternoon the team covered the mile and a half in remarkable time for a trial race. The flag passing has proved the greatest stumbling-block in the path of the team, and most of Monday's practice was spent in improving this, as it contains a considerable part of yesterday's practice. The intrants also received some little attention.

At dusk another trial race was run off. Captain Lorenz is pleased with the way his team is rounding into shape, and feels confident of a good showing against the Sophomores. The order in which the men are to run will be decided definitely tomorrow. The balance of the week will be spent mainly in practicing passing the flag.

FRESHMAN FOOTBALL OUTLOOK VERY GOOD

Although the victory for the 1918 football squad on Field Day does not appear as certain as before, still the outlook is quite promising. On account of the very poor showing against Newburyport last Saturday, the final team has not yet been picked, but the men are working hard every day and fast recovering their old form. About twenty-three players are reporting regularly, and so many of the Sophomore plays can be worked by the substitutes, thus enabling a strong defense to be planned.

McIlroy is suffering from a sprained ankle, but all the other men are in fine condition. This lacklacking practice is given, but hard scrimmages take up most of the time.

TECHNOLOGY RECEIVES $250,000 DONATION

Mrs. Caroline F. French Starts A New Fund in Memory Of Her Father.

The sum of $100,000 has been given by the Institute by Mrs. Caroline F. French, in memory of her father, Jonathan French. Another amount of $100,000 is held in trust for four beneficiaries, one-fourth to be paid to Technology on the death of each. This gift is to be known as the "Jonathan French Trust Fund." No interest is taken from the fund.
