MEETING OF CHINESE STUDENTS IN UNION

Seven Institutions Represented In Gathering Last Saturday.

A very interesting gathering was held Saturday afternoon in the Union when sixty Chinese students, ten of them girls, were entertained by the Institute Chinese Club, Technology, Harvard, Boston University, Radcliffe, Wellesley, Dana Hall and Bradford Academy were represented. The speakers were Dean Burton and Mr. John Ritchie, Jr.

H. E. Chow, a graduate in Course II, presided at the meeting, and in his introductory remarks stated that the purpose of the meeting was to acquaint the Chinese students with each other.

Dean Burton, the first speaker, told how the foreign students attended the courses in American colleges, saying that the students of today largely shape the student life themselves. He was followed by Mr. Ritchie, who called attention to the fact that Chinese students are here on a two-fold mission: To learn Western knowledge and to bring to the country the discoveries which the Chinese made independently centuries ago.

After one of the Wellesley girls had played some recent piano selections very effectively, J. Z. Zou, Course VI, made some exceedingly clever blackboard caricatures showing the development of Chinese costume. He indicated the fashions of the Ming and Manchu dynasties and the present day. He then went into the future, showing the Chinese woman student of 1935.

Mr. M. Chow entertained the company with lantern slides of auto chrome and colored pictures, which he had taken around Boston and New Hampshires. Refreshments were served.

Boston University was represented by Mr. Tung. Among the ladies present were the Misses Tsang, Wong and Soong from Wellesley, Misses Neu of Wellesley, Wellesley, Dana Hall and Bradford Academy and Misses of Radcliffe.

M. E. SOCIETY TRIP

Three Squads Visit Factories Of Metz Company.

Three squads of the Mechanical Engineering Society visited the three Vets automobile factories in Waltham last Friday. The party was accompanied by Winter Metz, son of the owner.

The operations and machinery were very interesting, and showed all stages of automobile manufacture. The men saw electric welding, forging,-case hardening, annealing by crude oil and by vacuumed gasoline furnaces, galvanizing, compressed air hoisting, tool-making, sheet metal and wood working, motor testing, painting, drying and upholstery operations.

Among the machinery, much of which was special, were automatic gear cutters, automatic valve grinding, plugging, milling machines of all types, broaching machines, Norton grinders, various kinds of planers and lathes.

FRESHMAN TRIALS

Thirty Men Try Out for Cross Country Team.

At the Freshman Cross Country trials last Saturday, Lippert, McVicker, Campbell, Munnell, Hamilton, Bond and Greely were chosen for the team, with Leonardi and Stevens as substitutes. Thirty men ran in the trials, and all of those who made the team showed their previous experience. Lippert and McVicker were very closely matched.

The team will go to Andover Saturday to compete with Harvard freshmen on Dartmouth Freshman and several preparatory schools. Bradley, the former Andover miler, will be unable to go on account of the I. C. A. A. A. A. Meet at New Haven.

THE TECH, BOSTON, MASS., MONDAY, NOVEMBER 16, 1914.
