THE TECH

Entered as second-class matter, Sept. 15, 1879, under the Act of Congress of March 3, 1879.

Published tri-weekly during the college year by students of the Massachusetts Institute of Technology.

Engineering and Scientific Notes
An automobile highway corresponding to the Lincoln highway in this country, is now being built: clear across Canada from the Atlantic to the Pacific.

The main telegraph, telephone and railway signal cables in the Canal Zone are being placed in underground conduits stretching entirely across the isthmus and including the Panama Canal and Panama Railroad. Branches will be built from the main conduit to the most important points.

Indoor Season Opens
Meeting For All Men Interested Monday Night.

To the Editor of The Tech,

I am the nominee for the position of a nominee for class treasurer. The name is not included in the official List of the Ball Committee, which is the final authority in such matters. Anyone having a complaint to make should, of course, submit it through the regular channels, instead of giving The Tech false information for publication.

Charles C. Smith, '17

CHAUNCY HALL CLUB
The first meeting of the Chauncy Hall Club will take place at the Union Friday at 7:45. Mr. Keat will be there to give the talk.

Y. M. C. A. FORUM
Next Sunday afternoon the Y. M. C. A. Forum will be addressed by Reverend George Hodes, D. D., Dean of the Episcopal Theological School, on "Why Should We Give Thanks?" Miss Barbara Stratton, soprano, and the Association Orchestra will furnish a musical program. Technology men are welcome to attend.

Yours respectfully,
K. REID, '18

College Clothes
This season we offer an unusually strong variety of Overcoats and Suits as well as formal garments, modelled and tailored to meet the requirements of the keenly critical.

400 Washington Street, Boston.

ENGINEERING AND
SCIENTIFIC NOTES
An automobile highway corresponding to the Lincoln highway in this country, is now being built: clear across Canada from the Atlantic to the Pacific.

The main telegraph, telephone and railway signal cables in the Canal Zone are being placed in underground conduits stretching entirely across the isthmus and including the Panama Canal and Panama Railroad. Branches will be built from the main conduit to the most important points.

CONTAINING 101 RIGHTS AND OVER 3000 FEET OF INSULATED COPPER WIRE, CONTROLLED BY ONE STUDENT WHO OPERATES SEPARATE SWITCHES FOR EACH SIGNAL, THE NEW FOOTBALL SCOREBOARD THAT IS BEING PREPARED FOR THE OHIO UNION SHOW DESERVES HEARTIER SUPPORT THAN IT HAS RECEIVED SO FAR.

Howard Bryan, who is in charge of the construction, is being assisted in the erection of the board by Louis L. Matson, a junior in the department of electrical engineering. It is probable that Bryan will attempt to set the board patented, as there is no other similar scoreboard devised that is used for recording football scores.

INDOOR SEASON OPENS
Meeting For All Men Interested Monday Night.

The fact that O. C. Lorenz was nominated as a candidate for two positions was due to a misunderstanding on the part of those who nominated him and was not in any way his fault. Lorenz is running for President only. The nominating committee was not advised of this at the time to prevent the publication of both nominations.

Yours respectfully,
K. REID, '18
