Race To Be Held This Saturday
-Freshmen From Five Colleges Entered,

Saturday afternoon the freshmen Cross Country Run Team will go to Andover to compete in the annual run over the course there. Freshmen from Harvard, Dartmouth, Penn State and Andover have entered teams, while the varsity teams of Wesleyan Academy and Andover will also compete. The distance is 3.3 miles, for the most part level and with good footing. The only difficult place is a hill about a mile from the start. Last year Colby won the meet, but it is doubtful if she can repeat her performance this year. As for the chances of Technology winning this year, Coach Knandy says that he is unable to give any opinion, because most of the training has been at the New Field, thus condition of which is hard to compare with that of the Old. The Technology freshmen placed fifth last year, and from the time trials, they were a little faster than the team representing 1918.

The following seven men will compete for Tech: Lippert, McVicker, Campbell, Munford, Hamilton, Bond and Greens. The first five men to finish for each team will score, Bradley will be unable to run on account of the F.C.A.A.A. meet at New Haven, and his loss will be keenly felt by the team.

HOCKEY TEAM MEETING
Season's Schedule Includes Yale, Harvard and West Point.

There will be a meeting of all candidates for the Hockey Team in 39 Rogers at 3.15 on Thursday, where the program for the coming season will be outlined. It is hoped that money may be obtained from the Athletic Association to pay for the services of a coach, in which case Mr. Ralph Whitten will probably be selected. At present games have been played with Yale, West Point, Harvard, Mass. "Aggies" and Williams. Games are pending with Dartmouth, Cornell, Columbia and Springfield Training School. The management is also endeavoring to arrange a game in New York with either Princeton or the St. Nicholas High Team. This year, by a new ruling of the Athletic Association, it will be possible for men making the team to win their T's if a certain percent of the college games played are won.

The Arena will open soon after December first and practice will start then. The competition for Assistant Manager will start first at this time and will continue until about the twelfth of December.

Business Experience may be obtained. Call at the Upper Office of The Tech at five o'clock any day this week.

Advertising Candidates for The Tech, Upper Office. Five to six any day this week.

FRESHMEN IN ANDOVER CROSS COUNTRY RUN

HOMMERS DINNER
(Continued from Page One)

but it was soon found that Simpson Parkinson, the leading man, had joined the English army. He is fulfilling our wishes as possible the role which he played last year. As Jack Simpson, a carefree student, was suddenly called upon to face great dangers in a foreign land, so Parkinson in real life has left Technology and can never see active service in Europe at any time.

Hiller, who took the part of the detective whom Simpson actually played, will be present, as will the majority of the other members of the cast. They will assist the house of the different departments of the management in explaining the competitions which will be held later in the year, and will also probably tell of some of the good times which they have enjoyed as members of the Show.

The new coach, Mr. Samuel Hume, is expected to be one of the most interesting talkers. He has traveled extensively and has become familiar with some of the leaders in the dramatic line. He is a college graduate with an A. B. and an A. M., but he is still young and still has plenty of pop.

Mr. Howard, who led the orchestra last year and who has been consecrated for the coming year, may be expected to tell of some big things that are about to happen in the musical line here this year. He expects to start work within a very short time after the Dinner.

Plans for the Show as a whole will be given by General Manager Lord, who was Business Manager last year. He will also announce the name of the successful author and the name of the book accepted. A number of books have been entered in the competition and the majority of them are exceptionally good. As it is considered a great honor to be the author of the Tech Show, the result is always looked forward to with much curiosity and interest.

The Business Department has made arrangements for appeasing the appetite and the thirst of the audience. A large number of men than have ever before attended a Hommers Dinner, and has provided tobacco in various forms as well. The Dinner will start at half past six. Tickets may be obtained by any student at the Cage, or from the members of the Management.

CONVOCATION
