There is a Great Difference in Tobaccos

Tuxedo is the Mildest, Sweetest, Most Pleasant Smoke in the World, Because—

First—No one but the makers of Tuxedo is willing to spend the money necessary to buy the mildest, choicest, most thoroughly aged, selected Burley tobacco.

Second—No one but the makers of Tuxedo knows how to treat this Burley tobacco so that every bit of pleasantness and goodness remains in the tobacco and every bit of unpleasantness and harshness is taken out.

Tuxedo
The Perfect Tobacco for Pipe and Cigarettes

Tuxedo was born in 1904. Its first imitator appeared two years later. Since then a host of imitations have been born and are clamoring for your patronage.

No imitation is ever as good as the original. No amount of advertising, no amount of blister and bluff, can ever make an imitation tobacco as good as Tuxedo.

If you are not a pipe smoker, you are denying yourself the greatest smoking pleasure known to man. Try Tuxedo in your pipe this week.

You can buy Tuxedo everywhere

Conveniently packed in 5c and 10c tins with gold lacquer, exclusive of pipe or tobacco pouch.

In Glass Hammond, 90c and 99c.

"Fill my pipe with Tuxedo and I'm content. You can't beat Tuxedo for mildness and purity."

G. RANDOLPH STONE
Famous Illustrator

"Tuxedo is mild, cool and soothing—just the sort of tobacco I need. Tuxedo goes with me wherever I go."

MACLAURIN SPEAKS ABOUT CO-OPERATION

Gives Address Before College Presidents On Last Friday Evening.

At the meeting of the New England College Presidents held last Friday evening at the Boston City Club, President Maclaurin gave an address on "Co-operation." In it, Dr. Maclaurin spoke of the co-operation of the State with which Technology has recently given so much consideration. The primary function of all colleges and universities is now and always has been to train individuals so that they will do their jobs well. He suggested that those professors and instructors in the higher institutions of learning might be able to solve some of the countless problems presented in the administration of modern cities and states on account of their being better informed as to the teaching of experience, and broader in their interests and sympathies. The co-operative effort is doing excellent work in a quiet way and which will doubtless be extended throughout the State as the subject of the topic taken part in it. This cooperation has shown itself most effectively in this community in the recent agreement between Harvard and Technology for carrying on the work of engineering as a joint effort.

SUNDAY FORUM

The Y. M. C. A. Discussion Group, or Forum as it is called, will have for its speaker this Sunday Mr. Frank Palmer Spence, director of education at the Y. M. C. A. schools.
