MEMORIAL MEETING IN HUNTINGTON HALL

Commemoration Of The Birthday Of William Barton Rogers

A convocation was held last Monday in Huntington Hall in commemoration of the birthday of William Barton Rogers, first president of Technology. The hall was well filled and the meeting was a success from every standpoint. President Maclean opened the convocation with a few words in honor of President Rogers and then introduced the speaker, Mr. J. P. Munroe, Secretary of the Corporation, and a student under William Barton Rogers. He stated that John Harvard, founder of Harvard, left only 726 pounds, while the founder of Yale left but 600 pounds. Neither of the two men, however, took any active part in their institutions. William Barton Rogers, however, took an active part in the founding and establishment of the Massachusetts Institute of Technology. The Rhode Island School of Design, which he founded, is considered one of the finest art educational institutions of the country by means of which funds may be obtained.

CIVIL ENGINEERS

Prof. Whipple Speaks On Sewage Disposal Friday.

The Civil Engineering Society will hold a smoker in the Union on Friday evening at 8 o'clock. Professor Whipple will speak on "Some Interesting Phases of Sewage Disposal." A business meeting will take place before the meeting, in order to elect a member of the Executive Committee, to fill the vacancy caused by the resignation of M. B. Dalton. The question of making members of the Civil Engineering option of Course XV eligible to the Society, will be decided.

CROSS-COUNTRY MEN

A meeting of the cross-country team to elect the captain for next year will be held at the Gym Thursday at five. The following men are eligible to the Society, will be decided.

Robert Hallowell Richards Tendered Banquet

Given in Recognition of Long Connection with the Institute

To Be Held This Evening at the Copley-Plaza

Painting To Be Presented

About two hundred and fifty "Tech" men represented the Corporation, Faculty and Alumni at the dinner given to Professor Robert Hallowell Richards last Monday evening at the Copley-Plaza in honor of his fifty years' connection with the Institute. The speakers were President Maclean, Eben H. Stevens, '83, of the same gradually accumulating a gallery of portraits of people closely connected with its history. Besides the one of Professor Richards the collection includes paintings of President Rogers, Mrs. Rogers, President Walker, Dr. Walker, after whom the Walker building is named, President Prichett and Dr. William T. Sedgwick. The

MUSICAL CLUBS GIVE CONCERTS THIS WEEK

Play At Brookline This Evening

-At Wellesley College Saturday.

The members of the Combined Musical Clubs will give a concert tonight in the Brookline Baptist Church for the benefit of the Christian Endeavor Society. They are to take a Beacon Hill car from Copley Square in time for the meeting.

RED CROSS RELIEF DAY

Boxes For Contributions In All Buildings Monday.

Monday, December 21st, has been declared Red Cross Day for the Institute. On this day there will be placed in each of the buildings properly marked boxes in which students may deposit whatever amount they desire to contribute to the work of relief in Europe. This work is under the control of a University Committee of the Red Cross, with headquarters in New York. The idea is that each month there will be some means established in the big educational institutions of the country by means of which funds may be obtained.
