MUSICAL CLUBS
(Continued from Page One)

In the second step beyond Coolidge Corner on Beacon St. The last practice will take place at 5 o'clock this afternoon in the Union.

On next Saturday evening, the clubs will give their third concert of the year at Billings Hall, Wellesley College. The concert has attracted considerable attention owing to the fact that it will be one of the numerous events given for the benefit of the Wellesley College Restoration Fund.

T. C. A. CAMPAIGN IS PROGRESSING WELL

Mr. C. V. Hubbard To Speak
Thursday On Japanese Work In Manchuria.

G. R. DURYEAE
In addition to the regular program by the Glee, Mandolin and Banjo Clubs, several features will be introduced; among these are selections by the Glee Club Quartet, the Hawaiian Quartet, readings, and an organ selection prepared by R. S. Clark, '92 for this occasion. Alexander Martin of Oregon, a member of the Glee Club Quartet, will give several humorous readings. Mr. Martin has had experience in interpretation and will appear regularly with the Clubs in this capacity.

Reserved seats for the Winter Concert and Dance will be placed on sale in the Union from one till two every day commencing tomorrow.

ANNIVERSARY DINNER
(Continued from Page Three)

accomplished for science and for humanity, but most of all we are in you personified the Technology spirit, which in the final analysis implies service to our fellow men.

Professor Richards retired from active work last June after fifty years of connection with the Institute. He was a member of the first graduating class and, following this, was an assistant from 1868 to 1871. In 1871 he was made Professor of Mineralogy and placed in charge of the Department of Mining Engineering upon its formation. Besides this work in the Mining Department he was Secretary of the Institute for a number of years. Professor Richards has contributed over one hundred volumes to the literature of mining, most of them technical works on mining.

Mr. C. V. Hubbard of Japan has been obtained as the speaker for tomorrow. He was with the Japanese troops in the war with Russia and won both their love and approbation of the Government and Military authorities. He is widely conversant with conditions in Japan and has a first-hand knowledge of conditions in the Far East. He is particularly fitted to advise men who are considering the foreign service.

Mr. Hubbard has taken as his subject, "What the Japanese Are Doing in Manchuria." In his talk he will take up their mining and railway enterprises and has expressed a willingness to answer any questions concerning prospects and problems of the engineer and architect in Japan.

FINANCE COMMITTEE
There will be a meeting of the Finance Committee tomorrow at seven-thirty in Room A of the Union.

MANDOLIN CLUB
There will be a rehearsal of the Mandolin Club tomorrow at 4:15 p.m. in Room B of the Union.

T. C. A. CAMPAIGN IS PROGRESSING WELL

Mr. C. V. Hubbard To Speak
Thursday On Japanese Work In Manchuria.

N. E. Kimball, '15, treasurer of the T. C. A., in charge of the financial campaign, reports that his men are meeting with good success in their efforts to procure subscriptions. Two days of the campaign have gone by satisfactorily, and Kimball is placing many hopes in what his men will be able to do today, the last day of the campaign. Subscriptions have been sent in by Alumni as well as members of the student body.

FEATURE ARTICLE

"The Teaching of Thermodynamics" is the title of an article which will appear in the January issue of the Monthly. It is written by a former Worcester Tech professor, who is at present a consulting engineer, and takes up the application of short methods to "thermo" problems. Such an article, the editors feel, is of especial interest to the Juniors.

FINANCE COMMITTEE
There will be a meeting of the Finance Committee tomorrow at seven-thirty in Room A of the Union.

MANDOLIN CLUB
There will be a rehearsal of the Mandolin Club tomorrow at 4:15 p.m. in Room B of the Union.

Meeting of Candidates for The Tech One-ability Club today. Lower Office.

The mining laboratories of the Institute and many other new buildings are being completed by Professor Richards were the first of their kind in the world. At this time Technology itself personified the Technology spirit, which in the final analysis implies service to our fellow men.

Professor Richards retired from active work last June after fifty years of connection with the Institute. He was a member of the first graduating class and, following this, was an assistant from 1868 to 1871.
