The committee was accepted by the class. The third suggestion was to have a committee appointed to make the necessary arrangements. It was pointed out by the executive board that this system was acceptable. The committee made up of ten men who would be willing to serve on such a committee and these ten names will be voted on by written ballots, the highest to compose the committee.

It was announced that the class executive board will have its picture taken on Friday at 1.00 at Notman's. The important part of the seating system is that the man who is first to look up No. 2 before the dance next precedes the one with "M" until "M" was positioned. The patrons of the affair are to lend their support to the arrangement and try to make it a success.

**Socialist Speaks.** (Continued from Page One)

Socialism is making itself felt as an influence for the betterment of humanity, through its policy of "the cooperative ownership and democratic management by the community, of industries producing the necessities of life." He showed how engineers, fully as much as laborers, come under the beneficial influence of privately-concentrated capital.

He emphasized the purpose of the Intercollegiate Socialist Society, with which the M.I. S. Forum is affiliated, as being not the promulgation of Socialism, but the promotion of an intelligent interest in the subject, and study of it, by college men and women. He, after imperial study and considerection, the student believes Socialism a menace to the country. It is his duty to fight it. Dr. Laddie pointed out if, on the other hand, he finds it to represent a tremendous betterment for humanity, it is his duty to fight for it.

At the close of the talk, after the applause had subsided, copies of the current "Intercollegiate Socialist" were distributed, together with application blanks for memberships in the local branch of the I. B. B. A large number of these having been filled out, the meeting adjourned.
