
We are glad to note that the post-office committee has reconsidered its decision and intends to recommend only a few minor changes at the Institute Committee meeting next Thursday. The system is at best only an approximation, the ratings have been based partly on the honor attached to each position and partly on the work required. As the experience of several years with the old system has produced, on the whole, very satisfactory results, we believe they should be changed only gradually and with careful consideration, as each individual case is found to require it.

Apparently the Union Committee intends to carry into effect immediately a few improvements which have been needed for some time. The flag on the Union hall is a long felt want, and additions to the repertoire of the victrola will do likewise. We hope that those who have complained about the antiquated victrola records will be present tomorrow to choose their favorites.

No improvement has yet been shown in the number of freshmen candidates for the pole vault, high jump and shot-put. Good meets are coming soon and more help is needed in each of these events. There is an excellent opportunity in the shot-put for some of the men who made the freshman track team, and equal openings in the high jump and pole vault for all possible competitors.

H. O. Stephens, '18, is showing remarkable form and speed in his distance running at the Gym. Although only a freshman, he has an excellent chance of making the Varsity team which will run at New Haven on March 8.

The prospects for the short relay team are continuing to be good. All the candidates are working steadily and with the right spirit.

Track practice for the rest of this week and next will be very important, as there will be no work during the Christmas vacation.

Technology will be up against some fast runners this season. Prawn and Llewellyn, veterans of last year, are both back at Portsmouth and Lacy, a new man, is showing great speed. McGuire, formerly of Exeter, is another man to be watched.

NIELSON RECOVERING

The Cushing Hospital reports that Benjamin Nielson, who was taken there on Monday, is getting along well. His brother, who was operated on Monday, is also getting along well. The Nielson family is another man to be watched.

JUNIOR CLASS DINNER

The Junior Class will hold its annual dinner in the Union at 6:30 on January 18th. The committee in charge has arranged to have moving pictures by the Vitagraph Co., illustrated songs and two other features which will not be announced until later. As the seating capacity of the Union is two hundred, only a limited number can attend the dinner.

SENIOR OFFICERS

The picture of the Governing Board of the Class of 1915 will be taken at Nottman's today, at 1 o'clock.

THE TECH

The Smoother Smoking Tobacco, VELVET, is naturally right.

Next year's ogling simply mellowes and refines its natural qualities. The secret of its "no bite" is first,
right tobacco; second, right ageing. The finest and sc metal-
lined bags.
