PLAN-NEW-METHOD FOR
FRESHMAN ARCHITECTS

Changes In Mechanical Drawing
Work Of The Second
Term.

A new departure is planned for the second term of the first year of Course IV at the Institute. It is proposed to have freshmen who expect to study architecture be given a course leading directly to the architectural design of the second year, in place of the usual mechanical drawing of the second term. It has been found that the present work deals too much with machine design, and does not give a sufficient amount of the technique of architectural drawing, so that the men are not properly prepared for the second year work. The new course will include studies of columns, doorways and other architectural forms, as well as the rendering of wash drawings. The plan is being tried at present by one student, and is expected to go into effect fully during the coming term.

XMAS READING

(Continued from Page One)

been the most widely popular and best loved. Written in 1843, it is still the favorite for holiday reading, and it is known in most of the languages of modern Europe. The brief preface gives the author's purpose. I have endeavored in thisGhostly little book to raise the Ghost of an idea, which shall not pass my reader's out of humour with themselves, with each other, with the season, or with me. May it haunt their houses pleasantly, and no one wish to lay it! It is full to overflowing with the warmest spirit of Christmas time, and for more than half a century has done immeasurably much to keep that spirit alive.

COMMUNICATION

Huntington Hall to the more comfortable one in the library downstairs is beyond me.

A. H. WENZEL, '17.

COMMUNICATION

To the Committee in charge of the C. E. Society's Special Trip to Riveside:

The eighteen men, whose names appear below, desire to know at what time the special car for the Riverside trip left Copley Square. Up to 11:30 P. M. Saturday the time of departure was posted on the bulletin boards as 6:30. A. M. Monday. It was reported by a special officer of the Elevated Railroad Company that the car left at 5:30 A. M.

A. R.

Mr. Blood gives Talk—Elect New President.

Mr. Blood of Stone & Webster

To Speak On Reports.

"Some Suggestions for the Making of Examinations and Reports" is to be the subject of Mr. Blood's address, when he addresses the Electrical Engineering Society tomorrow night. It is a good one and should be of great interest to all the members.

Mr. Blood graduated from Technology twenty-seven years ago. He has been in nearly every part of the United States since then, and his experience in engineering matters is of a very wide one.

SECOND FORUM MEETING

Mr. Tead Gives Talk—Elect New President.

Last Friday the M. I. T. Forum held its second meeting of the year. Several new men were present, and the society's roll was considerably increased. The President, after opening the meeting, introduced Mr. Or- way Tead of the I. S. S. Alumni Committee, who gave a ten-minute talk showing why all college men should be interested in Socialism. Plans for further work were then discussed and an address similar to last Tues- day's was determined upon for Jan. 12. A meeting of the Society to discuss further plans was fixed for Tues- day, Jan. 5, in 8 Eng. C.

R. G. Berger, President of the Club, then declared it would be impossible for him to retain the office permanently, and called for nominations. W. R. Holway was unanimously elected to the position.

WINTER CONCERT

(Continued from Page One)
