TECHNIQUE SIGN-UPS OUT TODAY!

Watch For The Men With The Little Yellow Books.

Today is the date for the big campaign to begin. From now until the book is cut you will be shadowed and haunted by the men with the little yellow books. Although the sign-ups do not come out officially until today, there has been some preliminary skirmishing going on. The report has come from the ranks of the Yellow Book men that nearly three hundred have succeeded to their withering fire and it is claimed on good authority that seventy-five odd rounds of precious fare was wrung from each of those poor souls before they were allowed to heat a retreat.

Signed, ye students who haunt the gloomy realms of the labs and drawing rooms. "It is rumored that 'Cap' Loomis, and his band of doughy warriors are planning an attack in broad daylight. Many prisoners are expected to be taken and it is hoped that they will co-operate to make the victory complete.

All the Seniors have not yet returned their proofs and statistics. It has been highly gratifying to the Board to watch the results of the last few days and they hope that the good work will continue. This is the last week to return the proofs and statistics.

Sign up for Technique 1916 today. Do not put it off but sign up now.
