M. I. T. A.

At a recent meeting of the Athletic Association, R. W. White, '18, was appointed second assistant track manager. S. W. Fletcher, W. T. Bigger and G. D. Burton, all of '18, were mentioned in the order named. The competition is not over, however, the position being only temporarily given.

H. B. Gardner, '17, has been elected to the Association to fill the vacancy caused by the resignation of R. M. Day. This election occurred automatically because Gardner received third highest vote in the Sophomore elections this year.

CHEMICAL SOCIETY

Mr. G. B. Gallup will talk to the Chemical Society tomorrow evening in II Rig. B, on the subject of "Advising M. I. T.", being a recent paper read by the New England representative of the Cosmopolitan magazine, member of the Chamber of Commerce's City Planning Commission, and a member of the Speakers' Bureau of Publicity Association.

WRESTLING MEET

(Continued from Page One)

The turn taken by the Class-Day controversy is indeed most encouraging. With the complete refutation of the charges of underhand dealing, that unreasonable animosity between factions, born of misunderstanding, drops out; the air becomes clear for action tending toward the highest good of the class as a whole instead of personal bitterness, the decision going to Brennan after twelve minutes. An instance of careless and inefficient management which is particular.
