Injunction Against Niemand Zu Hause Feared—Jealousy The Motive.

At a late hour last night news was received that a certain prominent theatrical agency, jealous because of the success that Niemand zu Hause has had in induc- ing a famous vaudeville act to come to Bos- ton on Friday, March 18, by thinking of having an injunction against the performance issued. It seems that the agency has some claim upon the services of this particular act which the vaudeville men have disregarded because, the agent, offered them to show before the In- surance student body in Huntington Hall.

However, it is not anticipated that there will be any serious trouble as a result of the stand that the agency seems to have taken. A prominent member of the Institute Committee, who is famous because of his per- sonal abilities, has been sent to New York to confer with the trouble makers. It is expected that he will be able to arrange some satisfactory compromise.

So do not hesitate to buy that ticket for Niemand zu Hause now. There is nothing to be gained by waiting. You know that you are go- ing to have fun.

There is nothing to be gained by waiting. You know that you are go- ing to have fun.

**FRESHMEN, SOPHOMORES, JUNIORS AND SENIORS**

Junior Prom Sign-Ups Thrown Open to Members of All Four Classes—Invitations May Now Be Had—Dance Orders Ready Soon.

The sign-up books for the Junior Prom, April 9th, have now been opened to members of all the classes. A book has been left at the Cage, and men may sign up there at any time, upon making the deposit of one dollar. There will also be a member of the Prom committee at the Union each day from 1 to 2 o'clock, who will receive the signatures. The number of sign-ups is limited to 250, in order to assure abundance of room on the floor at the Prom. The committee argues that as many as possible sign up now, so that arrangements may be made for the number of programs, and for the number of supers to be served in the main dining room of the Copley Plaza.

The invitation cards to be sent out will be ready for distribution, at any time from now on. They may be obtained by presenting the sign-up slip at the Union any room, between 1 and 2 o'clock.

On Saturday, March 19th, or Mon- day, the 22nd, the preliminary dance orders will be ready for distribution. The committee desires that everyone make a special effort to sign up by the above dates.

A unique design has been selected for the dance programs, done in leather. They are sure to be popu- lar, embodying, as they do, both good taste and a novel design. The committee feels fortunate in being able to secure such a creation. The Philadelphia engraver states that he will be able to have them in Boston by April 1st.

**C. E. ADDRESS**

**Mr. F. H. Newell To Speak On Irrigation.**

Tomorrow, the 16th, there will be an opportunity to hear a national au-

**TUESDAY, MARCH 16, 1915.**

**INSTITUTE TO GET FINE TOOTHED COMB**

Every Man In Tech To Be Given Opportunity To Sign Up For Technique.

Technique sign-ups have been busy at circulating the little yellow cards, and have already signed up four hundred of the student body, besides numerous professors and members of the instructing stuff. Complaints have come in however, that everybody who desired to get a book has not been seen. Some of the Seniors who spent their time in the final recesses of engineering A, working on their thesis, have not been spotted by the active book-carriers, and that the more gloomy and secre- tive portions of Rogers and Walker, such as the mining laboratory and the adjoining products of the chemical laboratory, have not yet been visited. In order that every man even if he is a 1915 thesaunder-who has not time to take any notes at all, and who is obliged to go to and from his home absorbed in abstruse meditations on professional subjects, will have an opportunity to sign up for the book, the board has decided to put in a new plan.

Every portion of the Institute build- ings and grounds will be gone over as with a one-toothed comb. The Board will evolve a scheme by which every student will have a chance to as- sure himself of a book. Perhaps you will not see the yellow book today nor even this week. But be of good cheer!
