HARE AND HOUNDS RUN
HELD LAST SATURDAY

First Run Of The Season—Club Officers Elected For Coming Year.

About fifteen men took the first run of the Hare and Hounds club last Saturday afternoon over the Newton Y. M. C. A. course. This run started the preliminary work of the spring cross-country season and gave the men who have been working indoors all winter, a chance to get out in the open and limber up. The weather was just right, there being enough chill in the air to create in the men a zest for the work and still not enough to cramp muscles unused to the cold. The course was in fine condition, owing to the fair weather which has prevailed lately. Coach Frank Kansky started his spring training at the same time by taking the run—with the men, covering the four miles of hill and dale with the rest of the squad.

After a swim at the Newton Y. M. C. A., the squad got together and elected officers of the club for the coming year. H. F. Gray, '26, of Medford, was elected chase captain and Malcolm Brook, '17, of Newton, assistant chase captain. Gray, Brook, Parker, Litchfield, Dodge, Norton, Pollard, Wilkins, Brown, Bend, McVicker and Allan made up the squad who took the run.

CHESS TEAM WINS
Victory Over Harvard Puts Technology Fourth.

Last Friday evening the chess team defeated Harvard by the score of 1 1/2 to 1 1/2, thus placing Technology fourth in the Metropolitan League, and ahead of the other colleges included.

As only four men of the Harvard team were able to appear, two games went to Tech by default. Of the others, Woodbridge and Foy defeated Kenns and Johnson, respectively. Kenigsberg's game with Elsonberger and that of Dean with LeFever were long contests, and had finally to be adjudicated. This resulted in a draw for Dean, while Kenigsberg, having at the time a slight disadvantage, was decided to have lost his game.

As the league games are not yet all played, Technology has a chance to obtain third place among the seven teams comprising the league.

TECHNIQUE 1916
(Continued from Page One)

The progress of the sign-up will be as inexorable as fate. In good time you will be approached in the drawing room, the laboratory, or elsewhere. You will not only be approached, but the sign-up will be willing and able to give you any needed information as to the book. All freshmen who have never had experience with Technique are to be enlightened on its advantages. However, no force will be used.

Begin now to save your money, so that when you are approached you will not have to make the humiliating confession: "I want to sign up, but I haven't got the money." It only costs 75 cents now, and two dollars more when the book is delivered to you. Think it over. The campaign begins today!
