TECHNOLOGY CHRISTIAN ASSOCIATION TALK

Mr. Charles R. Drum Spoke In Union Yesterday—Large
Number Present.

The regular weekly talk given by
the Technology Christian Association
was held yesterday noon in the
Union. Mr. Charles R. Drum was the
speaker and he took for his subject,
"Independence." As Mr. Drum has
been principal, for over twelve years,
in one of the leading high schools in
Syracuse, N. Y., he was able to give
a very interesting and straightfor-
ward talk to the large number of men
present.

"Independence" will sum up the
lives and experiences of most college
students. It sometimes tends to lead
a young man in the wrong direction.
The effects of alcohol may be consid-
ered as three chains, the chain of ap-
petite, for alcohol produces a produc-
tive appetite, the chain of habit, and
the chain of evil association. Habits
are strong in human life. The spirit
of independence has led young men
to feel as if they could use al-
cohol and not feel the effects of it.
Independence often leads to pro-
fanity. The reason that some fellows
swear is because they are anxious to
make an impression, it being "un-
spiritualized conduct." Any man who
fills his sentences with oaths is an
ignorant, unkind to himself and to
those who have to listen to him. He
burns the heart of the other fellow.
He is a pug, insignificant man who
shaking his fist at God, even if man is a
mere speck on this huge universe.
Independence gives one the chance

to climb the heights—to make a man
of himself. When Garfield was called
to climb the heights—to make a man
merely a speck on this huge universe.
He climbed and became what he was.
"Who fears most, sure-
y falters."

FIRST FORMS OUT

Editor Of Technique Pleased
With Final Proofs.

The first forms of Technique 1916
have just come from the press. Ac-
cording to the Editor-in-Chief the re-
results are highly gratifying. He says
the letter and paper go well together,
producing a pleasing effect. As all
the ink and paper go well together,
such a book. The editor of the book.
The final forms are produced, attention
is turned to the cover. The book is
having different samples made up, in
order to get the best possible appear-
ance. The sign-up campaign to pro-
gress very well, a good number of men
having signed for two copies, while
several students are so enthusiastic
over the prospects for a good Tech-

nism that they have agreed to take
four apiece.

T. C. A. ELECTION

The annual election of the officers of
the Technology Christian Association
will be held on April first. All
nominations for the office of presi-
dent, vice-president and treasurer,
must be handed in at the T. C. A.
office by five o'clock Thursday and
must be signed by five members of
the association.
